March 02, 2023 - PRESSADVANTAGE -

Mighty Dog Roofing, based in Alpharetta, GA, is proud to announce they have recently earned more five star reviews, and they currently have an overall rating of 4.9 out of 5 stars on Google. Jean E. gave them a five star rating and said, "Excellent and professional service. Excellent communication and very reasonable pricing. We would use them again for other home related projects." In addition, Will M. also gave them five stars and said, "Mighty Dog did a mighty good job on our roof - too bad I cannot give more stars - they were wonderful."

There are a number of factors that make Mighty Dog Roofing distinctive from other roofing contractors in Alpharetta. First of all, they have a team of certified and qualified roofing specialists that allows them to provide a craftsmanship warranty, including a manufacturer's warranty, and the Mighty Watchdog Maintenance Annual Checkup to ensure that the roof remains healthy for many years to come. Second, they provide 24/7 service, which means they can be contacted at any time there happens to be an issue with the roof, or gutters, or windows.

Mighty Dog Roofing will perform first a 25-point inspection that will serve as a thorough and comprehensive

inspection of the entire home exterior. To help with this they will use GoLive Superscan and Drone SuperScan. This inspection will include: inspection of skylights; drip edge inspection; inspection of valleys; eaves and rakes inspection; nail head inspection; inspection of step and counter flashing; roof edging inspection; roof ventilation and exhaust system inspection; hip and ridge inspection; inspection of roof sheathing or decking; inspection of gutter aprons; gutters inspection; soffits and fascia inspection; chimney inspection; inspection of furnace caps and pipes; plumbing stack inspection; inspection of AC unit exterior; inspection of siding; window inspection; foundation drainage inspection; inspection of storm damage caused by the wind; downspouts inspection; attic inspection; ventilation inspection; and inspection of storm damage caused by hail.

The Drone Sky View inspection is a distinctive feature of the services provided by Mighty Dog Roofing of Alpharetta because it uses innovative technology to provide the best kind of reporting possible. This kind of reporting is preferred by real estate agents and approved by the insurance firms because it provides a great view of the various parts of the exterior of the home, especially with the roof and other parts that are usually difficult to access. For real estate agents, this is a great way to show potential buyers the good condition of the home before the sale. And for insurance companies, it offers an objective view of the exterior parts of the home.

Another distinctive feature of the Mighty Dog service is the Customer Vault, which is a personal vault or storage of information for each client. They keep it as a record of the health of the home exterior for each client during the initial inspection and then throughout the lifetime of the home. It will include photos, damage assessments, measurements, warranties, and any insurance notes.

They also offer the Curb Appeal Visualizer, which allows the client to visualize what the roof would look like when the work is completed. The client can try certain colors and materials and see how the home would look like with them and this makes it easy to choose what they prefer. This information is included in the Customer Vault.

Mighty Dog Roofing of Alpharetta, GA, is locally owned and operated by Brian McNeese who earned a degree in Construction Management from Georgia Tech. He currently leads the way in home exterior repair and installation in Alpharetta with Mighty Dog.
