

Roofing Contractor Serving Winter Haven Florida Gets Another Highly Positive Review

March 02, 2023

March 02, 2023 - PRESSADVANTAGE -

Mighty Dog Roofing, based in Winter Haven, FL, is excited and proud to announce they have received another five star review from a satisfied customer. Currently, they have an overall rating of 5.0 out of 5 stars on Google. This roofing contractor offers roof inspection, roof repair, roof installation, window installation, and more. They understand that 20 or more years of wind, sun, snow, rain, and hail can wear down any roof, in the Winter Haven area. They recommend repairing even small leaks to ensure that the problem will not grow worse and lead to more expensive repairs or even roof replacement. Their team of roofing experts can handle both residential and commercial roofing needs in the Winter Haven area.

In the above-mentioned customer review, Carlos P. gave them a five star rating and said, "It was great to work with these guys. I live out of the country and bought a house in Florida. Said house needed a new roof and used this company. Louis was an absolute pleasure to deal with. Great communication and great quality of work. Recommend 100%."

The 25-point inspection they always provide for the entire home exterior is an important step before the actual roof repair, roof installation, window installation, etc. This inspection is performed using a drone. It will

include: drip edge inspection; inspection of valleys; inspection of skylights; nail head inspection; inspection of step and counter flashing; eaves and rakes inspection; roof ventilation and exhaust system inspection; hip and ridge inspection; roof edging inspection; inspection of gutter aprons; inspection of roof sheathing or decking; soffits and fascia inspection; chimney inspection; gutters inspection; plumbing stack inspection; inspection of AC unit exterior; inspection of furnace caps and pipes; window inspection; foundation drainage inspection; inspection of siding; downspouts inspection; attic inspection; inspection of storm damage caused by the wind; inspection of storm damage caused by hail; and ventilation inspection.

The roof inspection done by Mighty Dog Roofing of Central Florida using a drone is a feature they offer that is typically not found in other service providers in the Winter Haven area. The Drone Sky View inspection report is approved by insurance companies and welcomed by real estate agents because the inspection report provided is objective rather than subjective and the video report can be shown by the real estate agent to a prospective buyer as proof of the good condition of the home's exterior before the sale is made.

They also provide the Customer Vault, which is a personal vault for every client. This is a record of information regarding each client. This includes photographs, measurements, assessment of damage, warranties, and insurance notes. The Customer Vault contains up-to-date information regarding the condition of the exterior of the home of the client. It will contain initially the inspection information and then the most recent information is added to this personal vault each time they provide a service, thus providing a history of the home's exterior.

They also provide the Curb Appeal Visualizer which is helpful for the client in choosing the colors and materials to be used for the roof. This software shows how the home would look for each particular choice, thus allowing the client to easily make a selection.

Mighty Dog Roofing of Winter Haven, FL, is locally owned and operated by Elliot Cohen, who leverages his leadership experience in a Fortune 500 company where he led his teams with professionalism, integrity, and collaboration. He embraces Mighty Dog's strategy of leveraging technology with excellent communication, customer service, and cleanliness to enhance the customer's experience.
