

Belmont Dental Introduces Wisdom Teeth Removal Services in Perth

February 24, 2023

February 24, 2023 - PRESSADVANTAGE -

Belmont Dental Surgery, a leading dental practice, is proud to announce that it has added Wisdom Teeth Removal Services to its list of services for the people of Perth. This service is provided by a team of skilled professionals and is designed to provide patients with safe and comfortable wisdom teeth removal in Perth.

Wisdom teeth are the third and final set of molars that typically appear in the late teenage years or early twenties. They can cause problems if not removed, and this simple procedure can be done at Belmont Dental Surgery. Wisdom teeth removal is a cheap tooth extraction procedure performed by a dentist or an oral surgeon.

Dr Kent Tan, the spokesperson for Belmont Dental Surgery, said, "The team is pleased to offer this new service to patients in Perth. Wisdom teeth removal is a common procedure, and Belmont Dental is happy to provide a safe and comfortable experience for their patients."

Wisdom teeth removal Perth is an important procedure that can prevent future dental problems. Wisdom teeth can become trapped beneath the gums or in the jawbone and cause pain, inflammation, and damage to

nearby teeth. They can also lead to the development of cysts or tumors. In some cases, wisdom teeth only partially erupt through the gums, allowing bacteria to enter and cause an infection. This type of infection is called pericoronitis and can be extremely painful and may require antibiotics or surgery to treat.

Dr Kent Tan, the spokesperson for Belmont Dental Surgery, also said, "the team believes that preventive dental care is essential, and that's why Belmont Dental is offering wisdom teeth removal in Perth. Clinic's goal is to provide high-quality dental care to patients, and their new service is just one more way they can do that."

At Belmont Dental Surgery, patients can expect a tailored treatment plan that includes a thorough assessment of their case and a detailed explanation of the wisdom teeth removal process. The dental team will also discuss any potential risks or complications that could arise.

Belmont Dental Surgery is an accredited dental practice that provides high-quality general and cosmetic dentistry in a friendly, relaxed environment. The practice is equipped with digital x-rays and OPG for increased patient safety and convenience. Patients can also expect ample parking at the rear of the building, making it a convenient location.

Belmont Dental Surgery clinic is located at 171 Belmont Avenue, Belmont WA 6104, and can be reached by phone at (08) 9277 3837 or by email at info@belmontdental.com.au
