Glenferrie Dental Clinic Introduces Wisdom Tooth Removal Treatment to Melbourne Patients

February 24, 2023

February 24, 2023 -
Glenferrie Dental, a leading dental practice in Melbourne, is pleased to announce the introduction of wisdom tooth removal treatment to its patients. The procedure will be performed by the clinic's highly skilled and experienced team of dentists and oral surgeons, who will use the latest techniques and technology to ensure a comfortable and efficient experience for patients.

According to Dr Peter Laird, the spokesperson for Glenferrie Dental, "Wisdom tooth removal Melbourne is a common procedure that can help prevent a host of dental problems, including overcrowding, gum disease, and misalignment. By introducing this treatment to patients,Glenferrie Dental hope to provide a valuable service that will help improve their oral health and overall well-being."

He further added, "At Glenferrie Dental, the team is committed to using the highest quality materials and implant systems to ensure the best possible outcome for our patients. With the state-of-the-art equipment and sedation options, team aims to make the procedure as stress-free as possible."

Wisdom teeth, also known as third molars, are the last set of teeth to erupt in the back of the mouth. They

usually appear between the ages of 17 and 25, and while they can be a valuable asset, they can also cause a lot of problems. When there is not enough room in the mouth to accommodate them, they can cause overcrowding and misalignment of other teeth. In some cases, they may also become impacted, leading to infections, cysts, and pain.

"Getting wisdom tooth removal surgery in Melbourne can be very tasking and expensive," Dr Laird noted. "However, by providing this treatment at Glenferrie Dental, the team hopes to make it more accessible and affordable for our patients."

Glenferrie Dental is renowned for providing state-of-the-art dental implants in Melbourne. Its team of dentists and implant specialists are committed to delivering natural-looking and functional smiles that last a lifetime. With a focus on patient care and satisfaction, the clinic provides a comfortable and efficient experience using the latest technology and equipment.

Dr Laird further said, "Glenferrie Dental believe that preventative care is key to maintaining good oral health. The team encourage patients to visit regularly for check-ups and cleanings to prevent dental problems before they arise."

If someone is in Melbourne and experiencing pain or discomfort due to wisdom teeth, they should contact Glenferrie Dental Clinic to schedule a consultation. With its commitment to quality and patient care, one can trust that their dental experience will be a positive one.

Glenferrie Dental Clinic is located at 827 Glenferrie Rd, Hawthorn VIC 3122, and can be reached by phone at 03 9818 1930 or by email at info@glenferriedental.com.au.
