March 02, 2023 - PRESSADVANTAGE -

Mighty Dog Roofing, based in Katy, TX, is happy to announce that they have received another five star review. This roofing contractor provides various services including roof inspection, roof installation, roof repair, attic venting, gutter installation, and more. They currently have an overall rating of 5.0 out of 5 stars on Google. In the recent review, Vicente J. gave them a five star rating and said, "I noticed a leak and as soon as called, I got a great service and a quick response to my need! Outstanding end to end experience, our problem was solved within 3 days."

Homeowners with aging roofs or those who have reason to believe their roof has an issue like a leak can request for a free inspection. One of the distinctive features of the services they provide is the Drone Sky View where they use a drone and innovative technology to provide the best inspection report possible. This kind of inspection report is approved by insurance companies and is preferred by real estate agents because it provides an objective report of the condition of the exterior of the home before the sale.

In conducting an inspection of the roof and other exterior parts of the home, Mighty Dog Roofing of Katy will take a look at 25 points. These include: attic inspection; inspection of valleys; inspection of skylights;

ventilation inspection; inspection of step and counter flashing; eaves and rakes inspection; drip edge inspection; hip and ridge inspection; roof edging inspection; nail head inspection; inspection of roof sheathing or decking; soffits and fascia inspection; roof ventilation and exhaust system inspection; gutters inspection; plumbing stack inspection; inspection of gutter aprons; inspection of furnace caps and pipes; window inspection; chimney inspection; inspection of siding; downspouts inspection; inspection of storm damage caused by the wind; inspection of storm damage caused by hail; and foundation drainage inspection.

The initial inspection report will be entered into the Customer Vault, which is a personal vault that Mighty Dog Roofing maintains for each client. Stored in this vault are reports, photographs, warranties, maintenance records, referrals, products used, etc.

Mighty Dog Roofing also provides emergency services for those situations when the roof or other exterior part of the home requires emergency repair. They can be accessed immediately through the vault for fast response.

To ensure that the roof will last, they also provide the Watchdog Maintenance service. This will involve yearly exterior inspections and comparison of the annual inspection reports. The reports will be stored in the Customer Vault and may be shared with insurance companies. The reports may also be important for realtors when selling the home.

Another important feature of the Mighty Dog Roofing service is the Curb Appeal Visualizer software that allows the client to try a particular color and/or material for the roof and be able to visualize how the home would look. In this way, clients would be able to find out which color and/or material would provide the look that they prefer.

Mighty Dog Roofing of Katy is locally owned and operated by husband and wife Robert and Jennifer Young, who have been married since 2006 and have been active members of the Katy community for even longer. She had a successful career in the energy industry as an accountant and later as a recruiter. She is currently working with contractors and realtors in helping homeowners stage their homes. Robert has been a business leader in the energy industry for more than 25 years, particularly with pipelines and energy software. He also served as a leader in two different Fortune 500 companies, and he was involved in managing billion-dollar assets and employees of up to 50. He leverages his skills and experience in business leadership and passion for customer service in managing Mighty Dog Roofing of Katy.
