Rainbow Notary and Nuptials, based in Jacksonville, remains a reliable source for a trustworthy Online Notary Florida.

The company's online notary services make it possible for Rainbow Notary and Nuptials to notarize documents for clients no matter where they are located, whether across town or the globe. Rainbow Notary and Nuptials accepts electronic signatures from clients by email from any device. The documents are delivered to the Florida Secretary of State and returned to the customers on the same day. Using electronic notarization, business deals may be finalized quickly and without any unnecessary holdups.

When it comes to the validity of documents, Rainbow Notary and Nuptials offers a 100% guarantee of the legitimacy of any documents they notarize. KBA, or Knowledge-Based Authentication, is used on a remote online notary platform to verify the signer's identity and examine their ID document, Rainbow Notary and Nuptials adds. The program also allows for a live video conference between clients and notaries, which is recorded, stored for up to ten years, and verifies the legitimacy and security of the transaction.

Among the many things, Rainbow Notary and Nuptials can help with real estate closings, banking, and broker changes requiring a remote online notary.
