

# **Leander Tree Experts Teams Up With Local Wildlife Conservation Group to Create Habitats for Endangered Species**

*February 27, 2023*

February 27, 2023 -

Leander, TX ? Leander Tree Experts is proud to announce their new partnership with the local wildlife conservation group, 'Friends of the Forest.' Through this collaboration, the two organizations will work to create habitats for endangered species and promote the preservation of natural resources in the area.

Leander Tree Experts and Friends of the Forest will be working to protect various animal species in their natural habitats. They plan to focus on both terrestrial and aquatic species, creating sanctuaries that are safe from human interference and providing resources for survival.

In addition, they will be engaging with local communities to educate them about conservation practices that can help support the wildlife in the area. Leander Tree Experts is also committed to using sustainable forestry practices so that their efforts do not contribute to further environmental degradation.

The partnership between Leander Tree Experts and Friends of the Forest has been years in the making. The two organizations have worked closely to develop creative approaches that combine their expertise. From providing technical advice on conservation management strategies to sharing resources, this collaboration is set up to ensure long-term sustainability and success.

By teaming up, they hope to positively impact local ecosystems while inspiring others worldwide to join in similar efforts. Together, they are taking decisive steps toward protecting the planet's precious natural resources for generations.

"We are excited to team up with Friends of the Forest to help protect our local environment and ensure that future generations can continue to enjoy its beauty," said Templeton Harlan, CEO of Leander Tree Experts. "Our priority is to ensure that these rare and endangered species have a safe place to live while simultaneously working to restore and maintain the forest's natural ecosystems and balance."

The partnership between Leander Tree Experts and Friends of the Forest will focus on creating habitats for the threatened wildlife that inhabit the area. In addition, it will help to replant trees, control invasive species, and reduce the environmental damage caused by human activities.

"At Leander Tree Experts, we are passionate about preserving our natural resources and protecting the area's biodiversity. We believe it is our responsibility to provide a healthy environment for all living creatures," said Harlan. "We are thrilled to have the chance to work with Friends of the Forest and make a real difference in our community."

Leander Tree Experts has provided quality tree care services in Central Texas since 2003. The company specializes in tree pruning, trimming, removal, emergency tree service, and storm damage cleanup. They are also experienced in hazardous tree removal, stump grinding, and land clearing.

In addition to partnering with Friends of the Forest, Leander Tree Experts also supports numerous other conservation initiatives. They are a member of the International Society of Arboriculture (ISA), an organization dedicated to promoting tree care knowledge and safety worldwide. They are also active members of the Texas Arboriculture Association (TAA).

"We are fortunate to be able to do the work we do here at Leander Tree Experts," said Harlan. "We take great pride in being able to give back to our community and contribute to the preservation of our natural resources. We look forward to continuing to work with Friends of the Forest and other conservation groups in the area."
