

# Oceanside Tree Service Experts Partners with Cutting-Edge Technology Firm to Enhance Tree Care Practices

*February 27, 2023*

February 27, 2023 - PRESSADVANTAGE -

Oceanside, CA ? Oceanside Tree Service Experts is proud to announce a new partnership with cutting-edge technology firm, Urban Care Inc., to develop innovative solutions for tree care. Oceanside Tree Service Experts can use the latest technology and data analysis to better understand their client's needs and improve tree care practices through this strategic alliance.

This partnership is a significant step for Oceanside Tree Service Experts. Leveraging Urban Care Inc.'s advanced technology, they will be able to analyze data and use predictive analytics to apply the best strategies for tree care, from root pruning to fertilization. Additionally, they will also have access to more comprehensive environmental monitoring tools, allowing them to develop more accurate forecasts to ensure that their solutions are tailored to each client's specific needs.

By combining their expertise in tree care with Urban Care Inc.'s technology, Oceanside Tree Service Experts can provide better and more efficient services at a lower cost for their clients. In addition, the new partners will explore opportunities for utilizing drones and artificial intelligence (AI) to increase data collection and analysis efficiency.

This cutting-edge technology will provide Oceanside Tree Service Experts with an unprecedented level of insight into their clients' forestry management goals. Through AI-assisted decision-making and forecasting, Oceanside Tree Service Experts will be able to deliver even better results faster and with greater efficiency than ever before possible. With this strategic alliance and the latest technological advances at their fingertips, Oceanside Tree Service Experts are poised to become industry leaders.

"We are excited to be partnering with Urban Care Inc., whose cutting-edge technology and data analysis capabilities will be a great asset to our business," said Hagery Frank, CEO of Oceanside Tree Service Experts. "This collaboration will enable us to deliver even more comprehensive tree care services tailored to our customers' needs."

Urban Care Inc. provides a cloud-based platform that enables organizations to curate, analyze, and make sense of data from various sources. The company leverages its advanced artificial intelligence (AI) algorithms and deep learning techniques to produce actionable business insights. With this new partnership, Oceanside Tree Service Experts will have access to a suite of powerful tools that can help them assess the health of their trees, identify potential problems, and recommend customized solutions for tree maintenance.

The partnership marks a major milestone for Oceanside Tree Service Experts, who have provided expert tree care services in the San Diego area since 2000. The company specializes in pruning, trimming, fertilizing, and removal services for residential and commercial properties. They also offer free estimates and consultations so that customers can understand what type of service they require and how much it will cost.

"At Oceanside Tree Service Experts, we are committed to providing our customers with the highest quality service possible," said Frank. "Our goal is to meet and exceed their expectations regarding tree care. This new partnership will allow us to utilize the latest technologies and data analysis to provide more efficient and effective services."

By leveraging the latest AI-powered technology and data analytics, Oceanside Tree Service Experts can quickly identify any existing issues or potential problems with trees and recommend tailored solutions accordingly. This enhanced level of service will ensure that customers have access to the most up-to-date tree care practices available.

"We are thrilled to partner with Oceanside Tree Service Experts," said Urban Care Inc. founder Patrick Bet. "Our mission is to empower businesses to unlock the value of data and make informed decisions based on real-time insights. We look forward to working with Oceanside Tree Service Experts to achieve this goal and revolutionize how we think about tree care."
