Tree Service Marietta Partners with Local Animal Shelter to Provide Shade and Shelter for Animals in Outdoor Play Areas

February 28, 2023

February 28, 2023 -
Marietta, GA ? Tree Service Marietta has partnered with the local animal shelter to provide shade and shelter for animals in outdoor play areas. The move is part of the company?s commitment to its community and provides a much-needed resource for pet owners and animal lovers.

Tree Service Marietta has been a leader in the Atlanta area for tree trimming and removal since its inception over 20 years ago. The company feels a strong sense of responsibility to its community and often partners with local organizations to provide additional benefits.

Through this partnership, they have donated their time, resources, and expertise to help provide shade and shelter for animals at the local animal shelter. These shelters provide a safe place for animals awaiting adoption or temporary housing.

The company?s commitment has been beneficial during the hot summer when temperatures are dangerously high. By providing overhanging trees or large structures that offer shade and shelter, animals can stay cool and comfortable while waiting for their forever home.

Additionally, pet owners can bring their pets into the play areas without worrying about overexposure to sunlight or heat. Tree Service Marietta has also guided proper tree care so the shelters can keep their outdoor spaces healthy and ecologically sound for years.

This partnership indicates Tree Service Marietta?s dedication to positively impacting the lives of those living in their community. They have made physical contributions like providing shade and shelter to pets and recently launched a tree conservation program to ensure Marrietta?s urban forest is not destroyed.

Information on the program can be gleaned here: https://www.pressadvantage.com/story/58379-tree-service-marietta-launches-community-outreach-program-to-promote-tree-conservation.

The initiative was spearheaded by Tree Service Marietta CEO Claire Veredico, who said, ?We are excited to partner with the animal shelter to provide shade and shelter for animals in outdoor play areas. This initiative is one way to give back to our community and support the well-being of animals in need.?

The project will entail the installation of trees and shrubs that will act as natural barriers against the elements and create sheltered areas for animals to play and relax. The plants will also help to reduce temperatures in the area, providing additional comfort for the animals during hot summer days.

In addition to providing shade and shelter for pets, the initiative will bring many environmental benefits to the area. Trees and shrubs effectively filter pollutants from the air, reducing carbon dioxide levels and improving overall air quality. They also play an important role in stormwater management and help to keep soil moisture levels consistent.

While the project has already begun at the animal shelter, Tree Service Marietta hopes it will serve as a model that other organizations can adopt. ?We believe that everyone should have access to green spaces and areas of natural beauty ? not just humans, but animals too,? Veredico said. ?We hope this project serves as a catalyst for change and encourages more organizations to invest in green spaces for their communities.?

Tree Service Marietta is committed to providing quality tree care services and taking care of the environment. With this project, they hope to make a difference in the lives of animals in need and foster a stronger connection between humans and nature.

For more information on the pet project, pet owners can visit the company?s offices at 2305 Colleen Cir SW Marietta, GA, 30060. The company can also be contacted at 678-661-6293 and sales@treeservicesatlanta.com.
