

Tree Service Pros Fair Oaks Launches Aesthetic Pruning Services to Enhance the Beauty of Trees

March 01, 2023

March 01, 2023 -
Fair Oaks, CA ? Tree Service Pros Fair Oaks is proud to announce its expansion into aesthetic tree pruning services. This service will enhance the beauty and aesthetics of trees through professional pruning and shaping techniques.

The company's new aesthetic tree pruning services include crown thinning, canopy raising, deadwood removal, and formative pruning. Crown thinning involves removing smaller branches and foliage near the center of the tree to create a more open feel without altering the overall shape or structure of the tree. Canopy raising involves removing lower hanging branches obstructing views or space below them to create a more open environment under the tree.

Deadwood removal is essential in managing the health of a tree by removing dead, dying, or broken limbs, which can cause damage to trees if left unfixed for too long. Finally, formative pruning allows trained arborists to sculpt and shape young trees into desired configurations, ultimately creating a visually appealing

landscape feature for homeowners.

With these new services offered at Tree Service Pros Fair Oaks, residents can expect increased property value due to increased aesthetic appeal from professionally managed trees within their neighborhood.

Tree Service Pros Fair Oaks is a locally owned and operated business providing residential and commercial services for all types of trees. Founded by CEO Lydia Johnson in 1998, the company has grown from a small two-person operation to a successful business with over 15 employees.

"We are excited to introduce our new aesthetic tree pruning services," said Johnson. "Our team of certified arborists have years of experience in the industry and know how important it is to care for trees properly. Our new service allows us to provide even higher quality care."

Aesthetic tree pruning will involve carefully trimming and shaping trees to improve their overall appearance. The goal is to create a pleasing shape while maintaining the tree's health and vigor. In addition, it can be used to reduce unwanted foliage, open up views, or provide a more attractive landscape.

The Tree Service Pros Fair Oaks team utilizes specialized tools and techniques to ensure that each job is done correctly. They take pride in leaving customers satisfied with the results, knowing their trees are healthy and looking their best.

"At Tree Service Pros Fair Oaks, we understand trees are living things," said Johnson. "Our goal is to provide our customers with superior services that meet their needs and help protect the environment for future generations."

In addition to aesthetic pruning, Tree Service Pros Fair Oaks offers various services, including tree removal, stump grinding, planting, and pest and disease control. Their team of certified arborists is committed to providing quality work at competitive rates.
