

Easy Breezy Car Wash Continues to Impress Customers with Its 5-Minute Express Service

March 08, 2023

March 08, 2023 -

Easy Breezy Car Wash in Santa Rosa has been making it easier for car owners in Sonoma County to keep their vehicles cleaner since 1997. It boasts having one of the most sophisticated and eco-friendly express car washes in the entire state of California, much of which is due to its modern and up-to-date car wash technology to go along with well-designed water reclamation modules.

It also boasts having a team of employees that are willing to do even the little things right to help satisfy its patrons. These are traits that have not gone unnoticed by its customers as many of them have left 5-star reviews on this fast tunnel and self-serve car wash's services. Matt R., the owner of Easy Breezy Car Wash, says, "We are proud to offer a quieter, gentler, and better car washing experience. Something that starts with our Easy Breezy Car Wash barn is that uses state-of-the-art express wash technology. All of which is topped off by our complimentary vacuum with a car wash purchase."

Kristin Hollis's glowing review described what makes Easy Breezy Car Wash so special as she claimed,

Easy Breezy is always our go-to car wash when we are in the Santa Rosa area. That's because it's a step above more traditional drive-thru washing. The prewash hand Scrub before going thru the wash is great as are the prices this company charges. The free vacuums after washing make it an even better deal! It also offers a clean vacuum and drying-off area which is nice because so many other car wash locations have dirt drying-off areas with overflowing trash and vacuums that don't work. It's quite the opposite here!?

Matt went on to add that the fact there drying off areas are so clean is no coincidence. Much of what they do is based on the experience that their workers and staff have in the car wash business and customer feedback is also taken very seriously. He says that the cleanliness of their facility will not only be observed in the vacuuming and drying areas either. They take great pride in keeping all areas of their popular express car wash as clean as possible. This high level of cleanliness was even mentioned in a recent favorable review. Mitchell Press stated, "This must be the best car wash in Santa Rosa. Really modern equipment that does an awesome job. I've been here in my new Ford Fusion, my wife's Pathfinder, and my Wrangler. Nice attendants and easy credit card payment. They have an app too which I downloaded which has saved me money! The beautiful exterior even looks like a vintage red barn. The place is spotless. Recommended."

One highly positive review even specifically mentioned how Easy Breezy Car Wash's employees are willing to go out of their way to give the company's patrons a satisfying express car wash experience. Nathan Haimson said, "I'm a new driver and this was my first time using a drive-thru car wash, so I was a little nervous. An employee immediately came up and helped me, which was super nice. Gave great instructions. He even noticed my hood looked slightly ajar and double-checked it for me. I think that's just how it sits on the car, but I was grateful he checked it out anyways. Super quick and did a good job cleaning. The free vacuums are super convenient as well." Matt went on to say other traits make them a great express car wash value as well. This includes such facts as they are a company that guarantees customer satisfaction with their experience, they use only professional-grade and environmentally friendly soaps and waxes, and they are a fully licensed and insured company. Matt added, "We like to think we offer a great overall experience as opposed to the more typical run-of-the-mill car wash setting."

Those in Sonoma County that would like more information on the express car wash and other car cleaning services that Easy Breezy offers can contact them by phone or visit the company website.
