

Long Island Roofing Company Gets A Website Makeover

December 03, 2015

December 03, 2015 - PRESSADVANTAGE -

USA Remodeling Inc., a business in Lindenhurst, NY, has announced that their website has received a full makeover. The new site is now fully mobile responsive, has a better layout, is better able to show photographs, and more. The website can be accessed at <http://usaremodelinginc.com>.

"We love our new website and really can't thank the design team enough," says Charlie Field from USA Remodeling Inc. "It feels as if we have finally entered the 21st century. Our new site clearly shows all the work that we do and enables our customers to easily contact us for information about our services or to book a consultation for their own roofing work. We are sure our customers will love it as much as what we do."

The new website provides extensive details about the work that the company does. This includes both interior and exterior remodeling and roofing work. USA Remodeling Inc. also wants to draw particular attention to the project gallery, where people can see photographs of the team in action and the final results of each project. These include kitchens, bathrooms, other interior elements, roofing, siding, and renovation work.

Through the made over website, people can also request a free, no obligation estimate for any job they would

like to have done. Once the contact form has been filled in, a representative from the company will contact the potential client as soon as possible to make arrangements for an estimate to be completed. Doing so online enables consumers to contact the company at a time that is convenient to them.

The works that have been completed by the company have been overwhelmingly positively reviewed. "I would love to thank Charlie and his company for the wonderful job they did on my house," says Kathleen H. "The workmanship is amazing. The guys who were at my home were very polite and kept the property in a very safe environment so that when we were in and out of the home nobody was hurt. I would without a doubt recommend USA Remodeling to everyone I know. My house looks like a brand new home. Thank you again to the whole crew of USA Remodeling for a job well done."

For those who need more information, full details are available through <http://usaremodelinginc.com>.
