

Coventry Invisalign Clear Braces Discount Offer by Verum Cosmetic Dentists

March 02, 2023

March 02, 2023 -

A leading Diamond Apex Elite Invisalign dentist in Coventry, West Midlands, Dr Chetan Mathias at Verum Cosmetic Dentists, is currently offering an Invisalign treatment at a special price with £500 discount. Invisalign is a revolutionary teeth straightening treatment that is an alternative to traditional metal braces and offers a number of benefits to patients. At the time of writing this article, more than 11 million people have received an Invisalign smile makeover worldwide.

More information about this offer can be viewed here: https://verumcosmeticdentists.co.uk/invisalign.

Invisalign uses a series of clear, custom-made aligners made out of special transparent plastic that are worn over the teeth to gradually straighten them. The aligners are hardly visible and can be removed from mouth for eating, brushing, and flossing. This means that Invisalign patients can continue to enjoy their favourite foods and maintain good oral hygiene without the hassles associated with traditional dental braces.

Invisalign is also a more comfortable option for patients. The aligners are made of smooth plastic that fits over a patient?s teeth. Additionally, because the aligners are custom-made for each patient, they fit more snugly and are therefore less likely to cause pain or discomfort. They do not cause the same types of mouth irritation that protruding metal braces can.

A video with patient testimonial about the Invisalign treatment is available at: https://drchetanmathias.co.uk/services/invisalign-clear-braces-coventry/.

Another benefit of Invisalign is that the time required for the treatment can be calculated more accurately and in many instances the treatment can be completed in a shorter amount of time than with traditional braces. While treatment time can vary depending on the individual case, many patients are able to achieve their desired results in just 12-18 months with Invisalign.

Invisalign is also a more discreet option for adult patients who may be self-conscious about wearing traditional braces. The clear aligners are virtually invisible and won't affect your professional or personal life. With Invisalign, one can straighten their teeth without anyone knowing. This can be a major benefit to people who spend a lot of face-to-face time with others in professional or social settings.

Dr Chetan Mathias, Principal Cosmetic Dentist is highly qualified and experienced in the field. He has successfully treated many patients using Invisalign and is committed to helping them achieve their desired results. He has attained the highest Diamond Apex Elite status within the community of Invisalign dentists.

The £500 discount on Invisalign is a limited time offer and is available to new patients only. To take advantage of this special offer, interested patients should contact Verum Cosmetic Dentists as soon as possible to schedule a free initial consultation.

Patients can take comfort in knowing that they will receive top quality treatment from the highly experienced dental team at Verum Cosmetic Dentists. Louise C. left a glowing review on Google: ?Very pleased with the results of my invisalign. The care and attention given by Dr Mathias, was perfect, he listened to concerns and resolved them. Charlie, his lovely assistant, helps make the process even smoother by answering any messages. A great 5-star service all round.?

Another patient, Angela C., left another a positive review on Google: ?I initially visited Dr Matthias at surgery in Coventry in Jan 2019 to assess options for straightening my much hated upper front teeth. After discussing options, I decided on Invisalign aligners on upper and lower teeth. Dr Matthias and his staff made me feel comfortable. (I'm not a big fan of the dentist chair) and made sure I understood my treatment plan. Due to delays due to lockdown, I started my plan in June 2020 and was provided with multiple packs of aligner which I changed every 2 weeks. Amazingly after only a few aligners I could see progress was already being made!

Regular check ins made me feel happy that I was on track. Due to the adjustments that were required on both upper and lower jaws my plan was undertaken over 18 months so it was quite a commitment but I've now finished my plan complete with whitening and composite bonding and loving my new smile. Wish I'd done it years ago. Dr Matthias and his team have been supportive and professional throughout and clearly love putting a smile back on their patients faces! Thank you so much! Still continuing with retainers overnight and determined to follow the final stages of my treatment so that this lasts a lifetime!?

Invisalign is a more comfortable and discreet option for adults and teens than traditional dental braces. The near-invisible Invisalign aligners allow patients to continue with their normal day-to-day activities at work and home without disruption.

Verum Cosmetic Dentists offers a complimentary initial suitability consultation for Coventrians interested in Invisalign. Interested parties are encouraged to book an appointment. Limited parking is available for patients visiting the dental practice. Visit this link for driving instructions to the practice: https://gotothis.one/invisalign-dentist-coventry.
