

Dr. Mark Hickman is on a Mission to Make Reversing a Vasectomy Affordable for Everyone

March 13, 2023

New Braunfels, TX - March 13, 2023 - PRESSADVANTAGE -

Dr. Mark Hickman from Microsurgical Vasectomy Reversals in New Braunfels, Texas, is addressing the fears surrounding reversing a vasectomy.

During a vasectomy reversal procedure, a direct and careful alignment of the two ends of the severed vas deferens is created. While a vasectomy reversal was regarded by most to be a complicated and expensive procedure for many decades, Dr. Hickman has used his expertise in microsurgery to make the results of the procedure much more reliable, repeatable, and, most importantly, affordable.

Dr. Mark Hickman is a pioneer in the field of laparoscopy, the science of conducting surgeries using minimally invasive telescopic instruments. He teaches minimally invasive techniques to other surgeons, has invented several surgical instruments, has a US patent to his name, and is recognized as a contributor to several other minimally invasive patients. He has used this expertise in laparoscopic surgery to make the procedure affordable for countless patients who wanted to reverse a vasectomy.

When asked about what inspires his mission, Dr. Hickman says, "I'm a firm believer in the word of God and His plan for every living creature. More than just reversing vasectomies, I want to reverse the public perception of the vasectomy procedure itself. I've talked to so many men and families who say they regret getting a vasectomy. They put their trust in the propaganda pushing the benefits of the procedure and ended up distraught with how it made them feel several years down the line - like they had lost an essential part of themselves that they couldn't fully describe. I've, thus, spent years of my life using my gift of mastery over modern surgical procedures to give my patients an even greater gift - the ability to bring new life into this beautiful world."

Dr. Hickman's dedication to his Christian beliefs is evident in the many other positions he holds outside of his professional life. He is involved with and passionate about the Men's ACTS Retreat Ministry. He currently serves on the Apostolate Board for the North American Province of the Missionaries of the Holy Family and on the Board of Directors of TIPHER (The Institute for Public Education, Health, and Research).

Microsurgical Vasectomy Reversals by Dr. Hickman offers two all-inclusive affordable vasectomy reversal options. The microsurgical vasectomy reversal cost option of \$3,300 includes local anesthesia and an oral sedative. The \$4,200 offer is performed under IV sedation and is administered by a Board Certified Anesthesiologist. Both microsurgical options are all-inclusive with no hidden fees. If the patient requires a vasoepididymostomy too, the cost of the additional procedure is included in the package.

Dr. Hickman's patients have graciously thanked him over and over again in their testimonials for giving them a new lease on life. Patients talk about just how comfortable they felt while talking to Dr. Hickman about their concerns and how the entire team at the New Braunfels clinic made them feel heard and understood when no one else did.

One patient's spouse writes, "We just wanted to extend our thanks for offering your services at a price that was attainable for us. You performed my husband's vasectomy reversal in March 2014. We conceived six months later! Jonah Aaron was born on 5/14/15 and we are so very grateful that you answered the call of God to help bring new life into the world!"

Another happy spouse says, "My husband, Roderick Cox, had his vas reversal on March 6, 2015. We are happy to report that we are now expecting our 4th child in early January. You can most definitely add us to your list of success stories. Thank you so much for your service!! When we knew we made a mistake in having a vasectomy but thought all hope was lost, we turned to prayer, and the Father turned us to you. Thank you!!"

Readers can contact Microsurgical Vasectomy Reversals by Dr. Hickman in New Braunfels at (830) 660-0600 to schedule a free consultation or to inquire about its affordable vasectomy reversal packages.
