

Bling Premier Lighting Of 127 Southwest Charlotte Offers Custom Designed Outdoor Lighting Installations

March 14, 2023

March 14, 2023 - PRESSADVANTAGE -

Bling Premier Lighting is offering the Charlotte, NC, residents professional high-quality outdoor landscape lighting installations at affordable prices.

Homeowners and business owners who want to beautify their property, for a special event or year-round, can turn to the lighting services offered by Bling Premier Lighting. As a national brand, the company has distinguished itself in the industry by using durable products, employing precise engineering practices, and crafting creative lighting installation designs. Now, Scott George and Debby Lustig are bringing the same core strengths that have made Bling a nationwide favorite to the residents of Charlotte.

Bling Premier Lighting of Charlotte serves customers in Southwest Charlotte, Charlotte, Belmont, Elizabeth City, Fort Mill, Gastonia, Lake Wylie, McAdenville, Myers Park, Pineville, South End, Uptown, and nearby areas. Its range of lighting services includes landscape lighting, patio lighting, permanent lighting, event lighting, holiday lighting, residential lighting, commercial lighting, low voltage LED lighting, dock lighting, string lighting, deck outdoor living lighting, patio chandeliers, accent lights, accessibility lighting, path lights, and more.

The company's lighting specialists bring a wealth of experience to the table which is backed up by the use of professional-grade lighting products and technology. The company assures customers that its lights shine on longer, brighter, and more efficiently than those used by its competition, giving Charlotte homeowners and businesses a greater return on investment and lowering their energy expenses.

Customers can rest assured that Blingle's Charlotte crew will be there with them from the start of the project until the very end. All the steps of the process from the design to the installation and long-term support are handled by the company's expert lighting professionals who prioritize customer service above all else.

Bingle has a 7-step process that takes all the burden of setting up and maintaining lighting installations off the customer's shoulders. It begins with a design consultation that can be completed virtually or in person with its design specialists. Clients are shown a digital image of their property and how the finished lighting will look. The computer-based lighting demo can be extensively tweaked until the customer is fully satisfied with the final design.

Next, a written proposal is drafted with the customer's requirements and a quote is presented. If the customer accepts the estimate, a contract is drafted and Blingle's team is scheduled to visit. There is no need for the homeowner to be present while its technicians install the lighting as it can take anywhere from a few hours to a few days based on the scope of the project. Blingle also fixes issues and provides ongoing maintenance and generous workmanship warranties on all its installations.

"If you have a big day coming up or have exciting plans for the upcoming season," Scott says, "give Blingle Premier Lighting of Charlotte North Carolina a call. We will make sure your property is the envy of the neighborhood and is ready to celebrate the holidays, commemorate an important event, or attract customers whatever your goal might be."

Charlotte residents have let their approval of the company's lighting services known through online reviews. Customers praise Blingle Premier Lighting of Charlotte for its lighting designs, affordable pricing, and helpful customer service. One reviewer says, "Scott and team did a fine job of accenting our courtyard. Neighbors have already looked at Blingle! Can't wait to enjoy it as the spring arrives!"

Another reviewer describes their experience by saying, "Our house is on the first corner coming into Meadowlakes. It was the model house initially, used to sell other homes to be built in the neighborhood. It needed lighting badly. We live in the back and the house looked deserted. Blingle did a great job at a reasonable price. We had the work done in two phases. The house now looks like someone lives there. We would highly recommend Blingle for your outdoor lighting project."

Readers who want to hire Charlotte North Carolina's premier outdoor lighting company can contact Bingle Premier Lighting at (704) 387-6284.
