

Roofing Contractor Serving Missoula Montana Earns Another Five Star Review

March 10, 2023

March 10, 2023 -

Mighty Dog Roofing, based in Missoula, MT, is excited and proud to announce they have earned another five star review from a satisfied customer. This locally owned and operated roofing contractor offers different kinds of services for the roof and other parts of the home's exterior, such as roof inspection, roof installation, roof repair, attic venting, gutter installation, and gutter inspection in the city of Missoula, which is located in western Montana.

In the recent five star review, Mary T. said, "I had put up a post on Yelp, but wanted to be sure that the word got out about this company. Mighty Dog was a fantastic company to work with. They did an excellent job replacing my roof, and bringing it up to code. Respectful, professional and on time. They helped me deal with the insurance company, they took care of all the inspections, and paperwork. They really did a fantastic job, I couldn't have asked for a better company to work with. Also I love the roof color, it really stands out and makes the whole house look new! Thanks Mighty Dog."

Nick Whitehead from Mighty Dog Roofing of Western Montana says, "We are a locally owned and operated residential and commercial roofing contractor with over 20 years of experience in Missoula Montana and

around the country. Regardless of the home improvement roofing needs you might have, we offer a quality solution that will leave you with peace of mind and a safe home. We work with the best manufacturers in the roofing industry and home improvement to deliver a quality installation that will last for years.?

Mighty Dog Roofing offers a technologically-centric service and one of the distinctive features of their service is the Drone Superscan, which they use for roof inspections. For each customer, they always perform an initial inspection first, which looks at 25 elements in the home's exterior. These include: nail head inspection; inspection of valleys; inspection of skylights; roof ventilation and exhaust system inspection; inspection of step and counter flashing; eaves and rakes inspection; inspection of gutter aprons; hip and ridge inspection; roof edging inspection; chimney inspection; inspection of roof sheathing or decking; soffits and fascia inspection; inspection of storm damage caused by the wind; gutters inspection; plumbing stack inspection; aircon unit exterior inspection; inspection of furnace caps and pipes; window inspection; attic inspection; inspection of siding; downspouts inspection; ventilation inspection; inspection of storm damage caused by hail; foundation drainage inspection; and drip edge inspection.

The drone-assisted inspection report is welcomed by insurance companies and real estate agents. Insurance companies can rely on the objective inspection report for claims processing and realtors can use them to provide prospects with an objective indication of the condition of the roof and other exterior parts of the home before making a sale.

Mighty Dog Roofing also provides the Customer Vault, which is a personal vault provided for each client for the safe storage of important information about the roof and other parts of the home's exterior. The Customer Vault will include the initial inspection report, photos, projects completed, products used, warranties, and more. This conveniently stored information would help to speed up their response whenever the client requires a particular service from Mighty Dog Roofing.

Mighty Dog Roofing of Western Montana, based in Missoula, MT, is headed by Nick Whitehead, who has been a part of the Missoula community for seven years and loves working with the local Montanans and ensuring their roofs are reliable. He is a Montana Army National Guard veteran and has 13 years of experience in the business. He relies on his highly technical educational background, including his MBA from the University of Montana, in his capacity as business leader of Western Montana Mighty Dog Roofing.

Homeowners and other property owners looking for a roofing contractor serving Missoula Montana can visit the Mighty Dog Roofing website or contact them through the telephone. They are open from 7:00 am to 8:00 pm, every day of the week.
