

Roofing Contractor Serving Smyrna Tennessee Offers Customers a Well-Rounded Roof Repair Experience

March 14, 2023

March 14, 2023 - PRESSADVANTAGE -

Smyrna-based Mighty Dog Roofing is a contractor that has established a solid reputation when it comes to the roofing services it provides. That includes being a roofing contractor that offers its customers a well-rounded roof repair experience. Something that includes excellent customer service from a customer's first contact with them to the completion of a roof repair project. This recipe for success has led this Eastern Nashville company to become one of the most in-demand roofers in its area.

Nick Lankford, who leads this Smyrna roofing team, says, "We are a locally owned and operated roofing contractor that's affiliated with a big nationwide company that knows how to do roofing work the right way. Our outfit also takes great pride in going the extra mile for our customers. That includes treating large and small roofing projects with the same eye for detail, helping our clients with roof insurance claims, only using quality roofing products, and doing thorough roof inspections that lead to exceptional roof repairs and accurate roof repair estimates."

Langford also brought up the wide variety of roofing tasks that their knowledgeable and experienced techs perform admirably. Something that includes the company's specialty, whole roof replacements. He says for

those that have roofs that are aging or continuously experiencing aggravating leaks, this type of work is the best way to make a roof watertight and look great again. Mighty Dog Roofing of Nashville East also handles all types of roof repair work. This includes everything from replacing a few shingles that have blown off during a wind event to replacing deteriorated roof structural materials.

The company leader says that they never consider any type of roofing job to be too large or too small for them to take on. They are also very good at finding roof leaks and then making repairs to such leak-prone areas as chimney flashing and vent pipe boots. The company's experienced techs are also very good at spotting roof and attic ventilation problems. He mentioned that this is very important because poorly vented roofs cause roof covering materials to break down and fail at a much faster rate than normal.

They are pleased to do whatever it takes to help customers extend the life of their roofs which are one of the most vital home structural parts. Langford also talked about some of their other lesser known but important services. One of which is its reputable gutter and downspout installation services. Properly working gutters help safely channel water away from a home's foundation and other areas where excess water can create unwanted problems. Smyrna homeowners also come to the company for help when it's time to install energy-efficient replacement windows. He says that no matter what type of roof, window, or gutter & downspout services they do for a customer, that customer can expect nothing but the best.

Customers that have had work done by Mighty Dog of Smyrna often write very favorable reviews of the roof-related services they received. Destini Reedy wrote, "We had our roof inspected by Brandon. He was very professional and worked with our insurance company to get the roof replaced from storm damage. They were on time and very well prepared for the installation. Everything on the ground was tarped and protected. They replaced a lot of decking without question and showed us plenty of photos of the roof during the installation process. The project supervisor communicated with us throughout the whole process and answered all our questions. I would absolutely recommend mighty dog roofing to anyone."

John Smith II proclaimed, "Just wanted to say that Nick, Justin, and The Mighty Dog roofing crew did an outstanding job on the replacement of our roof. Not to mention their cool use of drone footage, the fantastic protective home tarp system, and thorough work site cleanup. The new roof looks great, and the crew is experienced and very knowledgeable. I highly recommend them."
