

Roofing Contractor Serving Lexington KY Earns Another Five Star Review

March 13, 2023

March 13, 2023 - PRESSADVANTAGE -

Mighty Dog Roofing, based in Lexington, KY, is proud to announce they have received another five star review from a truly satisfied customer. This roofing contractor is a locally owned and operated business that serves the Lexington area and around the country. They offer roof inspection, roof installation, roof repair, attic venting, gutter inspection, gutter installation, and more.

In the above-mentioned customer review, Carl H. gave them five stars and said, "Everything about the experience with Mighty Dog Roofing was top notch quality and service. Paul and his team set a convenient time and showed up when they said they were going to. Every question I had was answered and explained so great, that even this country boy knew what was going on. All my communications were quickly answered and followed up upon. All estimates were explained and understood. Very professional, responsive, and great quality work. Better yet the job was done cleanly and on-time. They even took the time to give my puppies some belly rubs. Thanks again to Paul and his team for a great experience. 5 star all the way."

One of the distinctive services they provide is the Drone Superscan, which is a drone-assisted inspection that allows them to offer an unbiased and objective inspection report for clients before coming up with plan for a

roofing project. Using smart intelligence analytics, this 25-point inspection provides vital information on the baseline health of the client's roof and other exterior parts of the home. Insurance companies welcome this objective inspection report and so do realtors when they are offering the home to potential buyers.

The elements of the inspection include: aircon unit exterior inspection; inspection of skylights; ventilation inspection; inspection of step counter flashing; eaves and rakes inspection; drip edge inspection; inspection of valleys; roof edging inspection; nail head inspection; inspection of step and counter flashing; inspection of gutter aprons; hip and ridge inspection; soffits and fascia inspection; plumbing stack inspection; chimney inspection; inspection of roof sheathing or decking; window inspection; attic inspection; roof ventilation and exhaust system inspection; inspection of siding; downspouts inspection; gutters inspection; inspection of storm damage caused by hail; foundation drainage inspection; inspection of furnace caps and pipes; and inspection of storm damage caused by the wind.

Mighty Dog Roofing of Lexington also offers the Mighty Watchdog Maintenance service, which involves annual inspections of the roof and other exterior parts of the home. This has the purpose of checking the condition of the roof and the other parts to make sure that there is no issue that is developing. If there is a problem that is developing, such as a small roof leak, the appropriate remedy can be provided to prevent it from growing into a more serious problem that will be more expensive to repair. The yearly reports will also be compared to find out how the roof condition is holding up and possibly have a reasonably accurate estimate of how long the roof will last, allowing the homeowner to be prepared for the major expense involving a roof replacement or repair.

Also available from Mighty Dog Roofing is the Customer Vault, which is a personal vault provided for each client. This is a storage space for relevant information about the roof and other exterior parts of the home of a particular client. Only the specific client and Mighty Dog Roofing will have access to each personal vault, which will contain photographs, inspection reports, details of a project, materials used, warranties, manufacturer information, and more.

Mighty Dog Roofing of Lexington is locally owned and operated by Martin Shreffler, who leads a crew of roofing experts who help him bring a high level of quality, sophistication, and always focus on customer service for the community or neighborhood. Martin ensures that all projects are manned by highly experienced, qualified, and certified experts. In addition, they bring a cutting edge and technologically-centric approach to roofing that includes drone-assisted inspections and other innovative tools like the Curb Appeal Visualizer.

Those who are searching for a roofing contractor serving Lexington, KY can check out the Mighty Dog

Roofing website or contact them on the phone. They are open from 7:00 am to 8:00 pm, every day of the week.
