

## COST

**EUROPE**  
Total costs reported by 10 countries categorized according to the functions of government: health, medical services, law courts, prisons, and police services. Total costs within the government functions of Health (60%) (e.g. medical services), and Police and Prisons (30%) (e.g. law courts, prisons).

**UNITED KINGDOM**  
The UK Home Office estimated the total cost of drug abuse to the UK economy in 2002. The cost of drug abuse to the UK economy in 2002 was £2.17 billion. Overall, 90% of total costs came within the government functions of Health (60%) (e.g. medical services), and Police and Prisons (30%) (e.g. law courts, prisons).

**UNITED STATES**  
These figures represent overall costs in 2002, which can be divided into three main categories: direct costs, non-health direct costs, and non-health indirect costs.

## COST

These figures represent overall costs in 2002, which can be divided into three main categories: direct costs, non-health direct costs, and non-health indirect costs.

► Health-related costs were projected to total \$16 billion in 2002.

► Productivity losses were estimated at \$328.6 billion. In contrast to health costs, these losses were not directly related to potential research and work in the belief that they are in the household and cannot have been performed absent the impact of drug abuse.

► The non-health direct expenditures primarily concern costs associated with the criminal justice system and crime victim costs. The total cost of the criminal justice system and the administration of the social welfare system. The total for 2002 was estimated at \$14.2 billion. This includes costs for state and federal corrections at \$9.4 billion, which is primarily driven by the cost of incarceration, followed by \$6.2 billion for federal supply reduction initiatives.

► The non-health indirect expenditures primarily concern costs associated with the criminal justice system and crime victim costs. The total cost of the criminal justice system and the administration of the social welfare system. The total for 2002 was estimated at \$14.2 billion, which is primarily driven by the cost of incarceration, followed by \$6.2 billion for federal supply reduction initiatives.

## SPECIAL POPULATIONS

### IMMIGRANTS AND REFUGEES

Immigrant and refugee have often been exposed to physical trauma and depression and anxiety due to the experience of displacement, separation from family and friends, and the challenges of navigating language barriers, racism, discrimination, xenophobia, and social isolation and loss of status. Trauma, depression, and fears of deportation are common.

### MUSICIANS

In order to maintain high-quality performance, certain musicians take drugs or alcohol to enhance their performance. Some musicians take drugs or alcohol to self-medicate from the effects of common chemical substance which is known as stimulants (e.g. cocaine) because of its neurological effects.

### STREET CHILDREN

Street children in many developing countries are a high risk group for substance misuse, in particular solvent abuse. Solvent abuse is often seen as "drug use" amongst street children. It provides a sense of belonging and a sense of control. It provides a sense of control and the support structure of the street family. Street children are often symbols of shared experience. (81)

### VETERANS

Substance abuse can be another contributing factor that affects physical and mental health of veterans. Substance abuse may also damage veterans' health and lead to financial difficulty. There is evidence that substance abuse disproportionately affects the homeless veteran population.

# Verify Aetna Benefit Coverage For Substance Abuse and Mental Health Services with Rehab Near Me

March 13, 2023

Los Angeles, California - March 13, 2023 - PRESSADVANTAGE -

The addiction treatment resource, Rehab Near Me provides detox and rehab resources, including helping policyholders verify benefits or coverage for Aetna insurance. For those seeking to overcome substance abuse, exploring one's policy benefits is a must. Most private addiction treatment centers accept a variety of insurance providers, including Aetna, to make their services more accessible to those in need.

Aetna is a well-known health insurance provider that covers a wide range of healthcare services and depending on the policy, potentially addiction treatment. Aetna insurance coverage for drug and alcohol detox and rehab can greatly reduce the financial burden on individuals seeking help for their addiction.

The coverage provided by Aetna for addiction treatment may vary based on the specific plan and policy of the individual. It is essential to check with Aetna to determine the extent of their coverage for addiction treatment services. Rehab Near Me works with Aetna policyholders, to verify benefits, so the policyholder can see what the actual plan will cover if anything. See the video, "Does Aetna cover the cost of alcohol and drug rehab?"

Rehab Near Me offers a comprehensive range of addiction treatment placement services, including medical detox, residential treatment, outpatient programs, and aftercare support. Their experienced professionals work with each client to create a personalized treatment finder plan that addresses their specific needs and goals.

Individuals seeking addiction treatment can contact Rehab Near Me to learn more about their services and how their Aetna insurance coverage can be used to support their journey to recovery.
