Emergency Roofer in Towson MD Now on Pinterest

March 17, 2023

March 17, 2023 - PRESSADVANTAGE -

Towson Roofing Pros, a roofing company in Towson, MD, is excited to be on Pinterest and has emphasized their role as an emergency roofer in Towson and nearby areas. Their experienced and professional team of roofing experts are ready to provide emergency repairs, including maintenance and other roofing needs. Their roofing services are all designed to ensure that the client's property is protected from the elements. They are also offering free estimates for their services.

They also take pride in the highly positive reviews they have been receiving on Google. For instance, Fred T. has recently given them a five star rating and said, "From start to finish, I received excellent service. I contacted Towson Roofing Pros after getting several quotes from other roofing companies. The roof inspector was informative and honest throughout the process, and the team did great work on my roof. They were the most professional and their price was the best. They replaced my roof in one day and did an excellent job. I would highly recommend them to anyone needing a new roof."

In addition to providing the services of an emergency roofer near me in Towson MD, Towson Roofing Pros also provides residential roof installation, roof inspections, roof repair, torch down flat roofing, new gutters

and downspouts, and commercial roofing. They offer 30 point roof inspections to determine possible areas of concern and also offer information about the overall condition of the roof. They want to point out that roof inspections and roof repair are often what makes a roof last for a long time. Yearly inspections and preventive maintenance can usually prevent a large number of inconvenient and costly roof problems.

Towson Roofing Pros can install asphalt shingle roofs in Baltimore. Asphalt shingles are becoming more popular for homes and businesses, and this is not surprising because they are a very affordable option and asphalt roofing typically outlasts other roofing alternatives, such as wood and cedar. In addition, the type of shingles that are utilized for asphalt roofing have lower environmental impact compared to the other options. Asphalt shingles are appropriate for severe weather conditions, such as hurricanes, heavy snow, and winds up to 130 mph.

They are also capable of installing or repairing torch-down EPDM roofing, which is generally the most cost-effective and best option for flat roofs. This kind of roofing works in the same way as asphalt shingle roofs but it is more compatible with flat or low-sloped roofs. It has an UV-reflective coating that provides for better energy efficiency and lower electric bills. In addition, the process of torching down the EPDM, which is a very durable rubber roofing membrane, ensures that the roof is water-impermeable whether it is rain or snow. Overlapping seams also ensure there is zero water damage during heavy rainfalls.

Established in 2005, Towson Roofing Pros is a Baltimore roofing company providing a comprehensive range of roofing services for both residential and commercial buildings in the area. They always ensure high quality service at reasonable rates and they also offer free estimates for all of their roofing services. When requested for an estimate, they will visit the home and they will conduct inspections and measurements for the roof and craft a detailed plan for the repair or installation of a new roof. They will provide a written proposal to the customer, which will include the various details regarding the tasks to be done, the materials to be used, and the costs of labor and installation. Once the customer has agreed to the proposal, they will schedule the start of the roofing project.

Their service areas include the Baltimore area, such as Cockeysville, Towson, Lutherville-Timonium, Parkville, Hampton, Carney, Owings Mills, Brooklandville, Pikesville, Yorktown, Carney, Reisterstown, and the greater Baltimore area.

Those who require residential roof replacement in Towson can check out the Towson Roofing Pros website or contact them through the telephone. They are open from 8:00 am to 6:00 pm, from Monday to Friday.
