Interior Designer Helps Renowned Restaurant Create Exceptional Dining Experience

March 14, 2023

March 14, 2023 -
St. Augustine, FL - Preserved Restaurant, known for its exceptional cuisine and dining experience, has taken their ambiance to the next level with a professionally designed interior by April O'Brien of Interiors by Studio A. This design combines soundproofing features and exquisite taste, so diners can delight in their meals and conversations without being disturbed.

April O'Brien is both a commercial and residential interior designer in St. Augustine with over 20 years of experience in the industry. She has a keen eye for detail and a deep understanding of how to create an atmosphere that enhances the dining experience. Her work on Preserved Restaurant has transformed the space, taking it from a beautiful venue with phenomenal food to a truly exceptional dining experience.

April believes that, "With its ability to shape the entire atmosphere of a restaurant, ambiance is an essential component for creating a memorable dining experience." Loud noises and echoes can be distracting, making it difficult to converse or fully indulge in the food. A comfortable setting invites guests to relax and savor every

moment while they enjoy their meal. The sound-dampening elements that O'Brien has incorporated into the design include acoustic panels, curtains, and even cushioning underneath each table that absorbs sound and reduces noise levels.

This ensures that diners can enjoy their conversations without having to compete with the sounds of other tables or the general noise of the restaurant. Fine dining often involves having conversations about food, wine, and other topics. When there is too much noise in a restaurant, it can be challenging to hear and understand what others are saying, leading to miscommunication and frustration. By reducing the amount of noise and echoes in the space, Interiors by Studio A has made it easier for diners to communicate and enjoy their conversations.

In addition to sound reduction, Interiors by Studio A has also incorporated subtle elegance into the design. The new look of the restaurant is chic and sophisticated, with warm, natural tones and soft lighting. The overall effect is a space that feels comfortable and welcoming, yet refined and elegant.

Preserved Restaurant has always been known for its exceptional cuisine, and with functional interior design by Studio A, it is also known for its outstanding ambiance. The new design has received rave reviews from both diners and critics alike, cementing Preserved Restaurant's place as one of the best dining destinations in St. Augustine.

To experience the ambiance of Preserved Restaurant for yourself, be sure to make a reservation. Don't miss out on the opportunity to experience unparalleled cuisine in a space that has been designed by one of St. Augustine's best Interior Design Firms with your comfort and enjoyment in mind.
