HEALTHY SMILES FOR THE WHOLE FAMILY!

## **Plantation Dental Clinic Now Offers Both Botox And Cosmetic Fillers**

*December 03, 2015*

December 03, 2015 - PRESSADVANTAGE -

Westside Dental Center, located in Plantation, FL, has announced that they are now offering both Botox and cosmetic fillers as part of their list of treatment options. Full details about the clinic can be obtained at <http://westsideplantation.com/>. The center joins a several dental offices that are branching out into the cosmetic industry as well.

"More and more dental offices, and particularly those offices that deliver cosmetic dentistry services, now also offer Botox and cosmetic fillers," says Dr. Uttma S. Dham from Westside Dental Center. "This makes sense, as it is impossible to have the perfect smile if you have concerns about wrinkles. We are proud to now offer these types of treatments at our clinic as well."

Botox is gaining in popularity because people now understand that it may be a safe, affordable and effective treatment for the signs of aging. The problems with Botox that were prevalent during the late 1990s and early 2000s are now virtually non-existent. No longer will any clinic offer Botox so much or so often that people have a so-called 'frozen face' in which they can't make any expressions anymore. Rather, clinics are now fully committed to only offering safe levels of treatment and they are checked and regulated on this.

The treatment offered by Dr. Uttma Dham and her team has been very well received by various patients. "I have been a patient of Dr. Dham for many years and have always been pleased with the dental treatment she has provided me," says one patient. "Now that she also offers some cosmetic facial procedures, I am even happier. Now, I not only have a million dollar smile, I don't mind actually flashing my smile as I'm no longer worried about developing wrinkles. Thank you Dr. Dham."

Full details about the Botox treatment offered by Dr. Dham and her team are available in her website. Patients can also use that website to schedule an appointment to have the procedure completed, or to schedule in a free, no obligation consultation. These consultations also offer prospective patients the opportunity to get to know the staff at the dental clinic.
