

Bling! Premier Lighting Offers Premier Outdoor Lighting Services In Clinton Township, Michigan

March 22, 2023

March 22, 2023 - PRESSADVANTAGE -

Bling! Premier Lighting of Northeast Metro Detroit is helping residents in Clinton Township and nearby areas set up and showcase high-quality outdoor lighting installations.

Bling! makes available lighting solutions to bring any outdoor space to life. The wide variety of lighting options, that Bling! can design and install, includes low-voltage LED lighting, residential lighting, dock lighting, landscape lighting, string lighting, deck outdoor living lighting, patio chandeliers, accent lights, accessibility lighting, path lighting, and more. The company's in-house lighting design expert can help homeowners illuminate their homes for any holiday including Christmas, Hanukkah, Valentine's Day, Halloween, Fourth of July, and more.

The team at Metro Detroit is spearheaded by the husband and wife team of Juan and Teresa Delgado, both of whom grew up in Southeast Michigan and feel a deep bond with the state and its people. Juan has years of experience in the automotive industry and brings the same work quality standards and high performance as his previous work to the lighting industry. The team he has brought together at Bling! of Northeast Metro Detroit is full of dedicated design and installation professionals who are acutely focused on delivering

exceptional customer service.

"This is our home and we want nothing but the best for the community we serve," Teresa says. "Community is at the core of the Bingle Premier Lighting mission, and that is what attracted us to pick up the franchise opportunity. We believe we are creating more than just beautiful lighting for properties and events. We take pride in our work. For us, the special part of the job is the memories that people create in the spaces that we light up. We want people to feel like we were able to make their festivities brighter and more memorable. That is the experience that we pour all our sweat and time into crafting. Call us today to get started in time for your special event and experience just how dramatically the right lighting can make your celebration a day to remember."

Bingle's nationwide success stems from its tried and tested 7-step process that covers everything from design to installation and maintenance. Customers start with an in-person or virtual meeting with the company's experienced lighting installation designer. The company uses innovative visualization software to recreate the customer's property in 3D and showcases the results of the installation even before the contract is signed.

Homeowners and business owners have the flexibility to change and tweak the designs to their liking before the written proposal is drafted which includes the estimates for the project and all the services requested. The company's lighting technicians are then scheduled to visit the property, giving them plenty of time to finish before the holiday or special occasion. Property owners are requested to be present on-site to make available the necessary outlets but are not required to stay while the crew works.

Bingle also provides the best workmanship and product warranties in the industry. The professional-grade lighting equipment used is assured to shine brighter and longer than the products used by other lighting contractors. The lighting equipment is selected to be fully weatherproof to withstand any damage that Michigan's snowy climate can do. In case there are any problems with the installation, Bingle promises to diagnose and remedy them at no additional cost.

Depending on the contract, Bingle's lighting crew will arrive on the property a few days or weeks after the event or holiday to take down the lighting installation. The rental time can be extended during the drafting of the contract. Throughout the process, customers can contact and have their concerns heard by Bingle's responsive and friendly team that is dedicated to providing outstanding customer service.
