Blingle Premier Lighting Is Boerne Texas's Premier Outdoor Lighting Company

March 22, 2023

March 22, 2023 -
Blingle Premier Lighting of Texas Hill Country is the contractor of choice for all-season and temporary outdoor landscape installations in Boerne and nearby areas.

Blingle?s outdoor lighting services are designed to blend seamlessly with the architecture and highlight its most attractive features. The commercial-grade, fully weatherproof lighting hardware that the company uses can withstand all weather conditions and set the mood for several years. Its wide variety of lighting options includes low-voltage LED lighting, residential lighting, dock lighting, landscape lighting, string lighting, deck outdoor living lighting, patio chandeliers, accent lights, accessibility lighting, path lights, and more.

The company?s success and popularity nationwide can be attributed to its simple 7-step design and installation process. During an in-person or virtual consultation with the company?s lighting design specialist, customers get to view a 3D reconstruction of their property that is based on actual site photos. The 3D model is then accentuated with the proposed lighting installation. Clients can give their input and change the design until they are satisfied with how the finished installation will look.

Blingle Premier Lighting then drafts a written proposal that documents the client?s requirements and gives them an estimate for the job. If the customer agrees, Blingle schedules its crew to visit the customer?s site for the installation. The company recommends meeting the crew at the start of the job to point them to the necessary electrical outlets but there is no need to stay on the site while the crew finishes the job according to the specifications.

If there are any problems with the installation, Blingle?s workmanship and product warranties ensure that clients can get their issues fixed at no additional charge. During the length of the contract, Blingle?s team will always be available to answer any questions and address any ongoing concerns. After the holidays, the company will schedule its crew to visit the property and take down the temporary lighting according to the customer?s schedule.

Blingle of Texas Hill Country is led by Rich Schneider, a Kerrville native who is passionate about bringing Blingle?s focus on community to his part of the woods. Rich has assembled a dedicated crew of lighting design professionals and installation technicians who are equally as excited as him to turn his vision into reality for the residents of Boerne and the rest of Texas Hill Country. Apart from his work at Blingle, Rich is also an active member of his church and a board member at the Kerrville Public School Foundation.

?Nationwide, Blingle represents the joy and festivity that communities share during times of celebration,? Rich says. ?Whether it be Christmas, Hanukkah, or Halloween, when homes light up, it signals that there is something special in the air and good times are upon us. As an active member of my community, I cherish such moments and Blingle gave me a chance to bring that same happiness to all my neighbors. The company?s years of experience in outdoor lighting installations, robust supply chain, and choice of professional-grade hardware also help me give my clients only the best of what the industry has to offer. That is the Blingle promise and that is what we are bringing to the residents of Texas Hill Country.?

Residents of Boerne have bestowed their local Blingle Premier Lighting franchisee with glowing testimonials that praise the quality of the lighting decorations, the professionalism of the crew, and the company?s attention to detail. On its Google Business Profile, where it has a perfect 5-star overall rating, one reviewer says, ?Fantastic service! Loved our holiday lights!? Another satisfied customer writes, ?Fantastic work! We loved it. They were timely, neat, and did a great job.?
