Otis Floyd, the owner of Paramount Roofing & Consulting, says, ?One service that you should consider having regularly performed at your home is a roof inspection. This allows for a roofing contractor to investigate every inch of your roof, to figure out if there are weaknesses, if and when repairs need to be done, and if your roof is holding up well for its age. Once a professional completes this type of job for you, they will tell you what they found and offer their expert advice. This is something you can trust when you are our client since we will be straightforward with our suggestions and advice.?

In the Paramount Roofing & Consulting customer review mentioned above, Victoria M. gave them a five-star rating and said, ?Very pleased with Paramount Roofing & Consulting and the professionalism of their staff. Extremely pleased with how the team cleaned up after themselves and our roof is beautiful! Also appreciated how Paramount worked with the insurance company to ensure the inspection was accurate.?

This roofing services company offers roof repair, roof tarping, and roof installation services. They want to emphasize that roofing is a dangerous and difficult task, which is why it is not advisable to make it a do-it-yourself (DIY) project. People who don?t have the requisite knowledge and experience will not be able to evaluate the roof correctly and find out everything that needs to be fixed. The roofing professionals from Paramount Roofing & Consulting have all of the necessary equipment and tools to access the roof conveniently and safely. This is usually done through the use of extension ladders. In addition, they have the necessary tools, knowledge, and experience to properly inspect the roof and find out if there are any signs of potentially serious problems in the future.

Paramount Roofing & Consulting has earned a reputation as a top roof repair and maintenance contractor in the Douglasville/Smyrna region. Whatever type of roof damage, large or small, they will provide the necessary assistance to the homeowners and other property owners in making an insurance claim to obtain enough funds for a new roof.
