

Masters Transportation - Kansas City Shares Information About Their Bus Dealership

March 24, 2023

March 24, 2023 - PRESSADVANTAGE -

Missouri based Masters Transportation- Kansas City is taking steps to help customers understand what they can find at a commercial bus dealership. Master's Transportation is one of the nation's leading providers of commercial vehicles for rent, lease, and purchase. The company is committed to making a significant impact in the transportation industry through their commitment to quality and safety.

President of Masters Transportation John D. Goodbrake says, "If you are looking to purchase a commercial vehicle, you can trust that we have what you are looking for in our inventory. We are happy to say that our inventory is filled with commercial vehicles of all sizes and shapes, to suit any need you might have. Whether you want a 12 passenger bus with the capacity for 2 wheelchairs to provide transport for disabled members in your group or whether you want a 15 passenger bus to facilitate a large group trip with a lot of luggage, or anything in between, we have you covered."

Masters Transportation offers certified new or used commercial buses and vans, and passenger buses and vans for customers to consider purchase. The company's commercial bus inventory and commercial van inventory includes popular brands, such as MSV, Forest River (Glaval, Eldorado and Champion), Executive Coach, Grech, Champion, Braun Mobility, Collins, and many more. The company works with a wide variety of clients, including churches, senior living, daycare, limo companies, non-emergency medical transportation, colleges, government agencies, and transportation providers.

The commercial bus dealership has worked hard to provide unique advantages to customers who are looking for specific buses or vans. Masters Transportation is able to offer lower pricing due to volume discounts, and they boast an unmatched inventory (with accompanying warranties) to ensure that customers get the best value possible. The company also has in-house financing and is committed to working with every customer's situation and needs to help them acquire the vehicle of their choice.

Additionally, the company manages a fleet of over 12,000 vehicles across the country. Thanks to their in-house maintenance and service tracking programs, expansive parts department, and so on, customers can rest assured that their vehicle will stay in road-worthy shape for the long haul.

Goodbrake says, "We try to be a step above the rest, and we are always looking to make sure we can meet our customers' needs and demands. This is an exciting time for our company as we are expanding our organizational capabilities to better meet our customers' needs, while our commitment to excellence in providing superior products and services continues to be the foundation of our company. As always, the customer is at the forefront of our priorities, and you can rest assured that we will treat you just as well as we have treated every customer we have had so far."

The company's commitment to ensuring their customers find the perfect vehicle and their dedication to quality customer service has made them the preferred provider for many in the area. James Ransom writes in his review, "I first approached Master's Transportation because I needed a bus for passenger shuttling. I've now purchased four buses from them, and I have had the best experience working with their Sales Manager, Will Mata. Will has been involved in all four purchases, and he has come through for us every single time. I continue to go to Master's, first, when looking for more inventory for our fleet."

Joe Tesar praises the Kansas City bus company in another review, writing, "Great company, awesome people, great customer service. If you have transportation needs, go no further. From full size buses to the best offerings in mobility transportation needs, do yourself a favor and give them a chance to earn your business. You will not be let down. Hidden secret, check out the service department. Wow. They do it all."

Masters Transportation - Kansas City's website is the best place for anyone looking for more information about the company. In addition to being able to browse through the company's inventory, interested parties can also learn about financing offers or leave a message through the website's customer portal. Alternatively, the company can also be contacted via email or phone. Masters Transportation - Kansas City can similarly be found on Facebook, LinkedIn, and YouTube.
