

Henderson Orthodontist Opens New Office

December 04, 2015

December 04, 2015 - PRESSADVANTAGE -

Wirig Orthodontics, an orthodontic clinic in Henderson, NV, is proud to announce that they have opened a new office in Henderson to replace their previous office. The new office is located at 375 N Stephanie St Ste 211 Henderson, NV 89014, which is on the corner of Stephanie and Warm Springs. The new location is more than twice as big as the old office they have moved from on Valle Verde. Full details about the new office can be obtained through their website at <http://www.wirigortho.com/>.

"We absolutely love our new office," says Dr. Matthew Wirig from Wirig Orthodontics. "We feel that the size will enable us to better serve our existing patients, as well as ensuring we can meet the growing demand we are seeing."

Wirig Orthodontics is one of the fastest growing orthodontic practices in the state of Nevada. As a result, the older office was simply no longer fit for their purpose. By moving to a larger office, the practice will be able to take on more patients and even more members of staff as well. As such, they will make a more significant contribution to the Henderson local economy as well.

The new office is designed with the comfort of patients in mind. As a result, patients and their families will have access to the impressive arcade, soft serve ice cream, slushies, and much more, completely free of

charge. Additionally, the 'PIE' theme that Wirig Orthodontics is famous for is also heavily featured.

"P-I-E is an acronym that we came up with to describe our goal to have a 'Positive Impact on Everyone'," explains Dr. Wirig. "I came up with the theme of using this acronym as a fun way to remember it for myself, my patients and my staff members. When you walk into our new office, you may just feel as if you just walked into a bakery, and we like that. So do our patients!"

The new office features many different references to pie with ceiling fixtures and decor that look like or reference fruits and pie. The dental assistants in the clinic all wear aprons as part of their uniform. Since the new practice opened on November 30, 2015, patients have been flocking through its doors for treatment and raving about the new arcade.

"Patients are loving the arcade," says Karah Ashcraft, the Marketing Director at Wirig Orthodontics. "They don't want to leave. We've had to ask some of our patients to leave at the end of the day so we can close up. People are trying to beat Dr. Wirig's score on the basketball game and so far nobody has been able to."

Dr. Wirig has been practicing in Henderson since 2008 and currently has 2 associate Orthodontists working for him as well. Their orthodontic office specializes in braces and Invisalign.
