Encinitas Tree Service Experts Unveil Tree Sculpture Collaboration with Local Artists

March 21, 2023

March 21, 2023 -
Encinitas, CA ? Encinitas Tree Service Experts is pleased to announce a unique collaboration with local artists to create one-of-a-kind tree sculptures. The project, which combines the expertise of the company?s tree service experts with the creativity of local artists, has produced stunning results that are as beautiful as they are unusual.

Peter Roman, CEO of Encinitas Tree Service Experts, conceived the idea for the project. ?We wanted to find a way to share our love and appreciation for nature with our community,? said Roman. ?And what better way than to bring together the best of both worlds?art, and nature? The result is something we?re incredibly proud of.?

The sculptures were created using a combination of pruning techniques and carving tools. The pieces were then finished with oil-based stains and varnishes to give them a glossy sheen. The result is an array of breathtakingly unique sculptures inspired by nature and crafted with precision and care.

?The goal was to create something that would stand the test of time?something timeless yet modern,? said Roman. ?We believe we have achieved this and are confident that these sculptures will be enjoyed for many years.?

For more information on how Encinitas Tree Service Experts improves nature, visit the company?s website: https://www.northsdtreeservice.com/encinitas/.

Local artists were invited to participate in the project and were given complete freedom to express their artistic vision. ?We wanted to provide a platform where local artists could showcase their work,? explained Roman. ?We weren?t involved in the creative process?we simply provided the canvas and the tools to create something truly remarkable.?

The sculptures are now displayed at various San Diego County locations, including Balboa Park and Mission Beach. They make a striking addition to any landscape and add a touch of whimsy to any outdoor space.

?We?re excited to see how people respond to these sculptures,? said Roman. ?This project proves that art and nature can come together in amazing ways, and we hope it inspires others to explore the possibilities of combining these two disciplines.?

Encinitas Tree Service Experts is a leader in tree care and maintenance services in San Diego County. The company provides comprehensive services for residential and commercial properties, including tree trimming, removal, pruning, stump grinding, and more.
