Creating an appealing and inviting furnished basement can also add to the property value as buyers prefer homes with extra usable space.

?With a remodeled basement, your home will fetch you a greater resale value,? the spokesperson for Premier Kitchen & Bath Remodeling says. ?While it is indeed an added expense, you can recoup up to 75% of your investment. Our design team knows how to ask the right questions to understand your vision for your space and create a plan that incorporates all of your family?s needs. The upgrades, installed by our team of highly skilled team of professional subcontractors, will be everything that you?ve ever dreamed of

and wanted. Here are the directions to our office. Please visit us to get started.?

Premier recommends creating a basement design that seamlessly fits in with the rest of the home?s décor. High-quality tray ceilings should be used instead of outdated suspended ceilings that make the underground more claustrophobic. An open stairwell with banisters can open up the space making it feel spacious and inviting. If there is a chance to put in windows, they should be used to add some much-needed natural light.
