Oklahoma City Tree Service Experts Pioneers Innovative SmartTreeCare Program to Monitor Trees

March 21, 2023

March 21, 2023 -
Oklahoma City, OK ? Oklahoma City Tree Service Experts, a renowned tree care and maintenance services provider, is proud to announce the launch of their pioneering new program?SmartTreeCare?that uses smart sensors to monitor trees and ensure they stay healthy and strong. The program is set to revolutionize how tree health is monitored and managed in Oklahoma City and beyond.

"We are very excited to introduce our innovative SmartTreeCare Program, which utilizes cutting-edge technology and data to monitor the health of trees effectively," said Lauryn Daniella, CEO of Oklahoma City Tree Service Experts. "This program will enable us to provide unprecedented service to our customers. We can detect problems early on and take preventive measures to ensure trees stay healthy for years."

SmartTreeCare uses advanced sensor technology to measure key indicators of tree health, such as soil moisture, light exposure, temperature, humidity, and wind speed. This data is then collected and analyzed by an AI-powered system, which generates real-time insights into each tree's growing conditions and overall health. The system also sends alerts when it detects any environmental changes that could harm the tree's well-being.

Using the SmartTreeCare program, Oklahoma City Tree Service Experts can identify potential problems before they become more significant. With this data, they can develop tailored solutions for each tree, such as adjusting watering schedules or pruning branches to ensure optimal health and growth. More information on how Oklahoma City Tree Service Experts maintains tree health can be gleaned here: https://www.treeservicesoklahomacity.net/.

"At Oklahoma City Tree Service Experts, we are always looking to improve our services and stay ahead of the curve with the latest technologies," said Lauryn Daniella. "Our SmartTreeCare Program uses advanced sensor technology and AI-driven insights to deliver superior tree care services to our customers. This marks a

major milestone for us as we strive to provide higher service for our valued customers."

The SmartTreeCare Program has been implemented in the Oklahoma City area successfully. The Oklahoma City Tree Service Experts team noted a significant improvement in the quality of their services thanks to the more accurate data they now receive from the sensors.

"Our SmartTreeCare Program has allowed us to keep our customers' trees in peak condition," said Lauryn Daniella. "We can detect potential issues much earlier than before and take corrective action immediately. Our customers trust us to take care of their trees, and this new program has given us the tools to do just that."

Oklahoma City Tree Service Experts is committed to providing the highest quality tree care services. Their new SmartTreeCare Program is revolutionizing how trees are monitored and maintained in Oklahoma City and beyond. Their team of experienced arborists has decades of experience caring for trees and shrubs of all sizes and varieties. They specialize in diagnosing and treating diseases and pests, trimming and pruning trees, removing dangerous limbs, fertilizing soils, and performing deep root injections.
