Encore Data Products Continues Great Headphone Giveaway Program

April 05, 2023

LAFAYETTE, CO - April 05, 2023 -
Encore Data Products, Inc., based in Lafayette, CO, is pleased to acknowledge that they are continuing the successful Great Headphone Giveaway program, initially launched in 2016. Since its launch at the Future of Education Technology Conference, Encore has given away countless headphones to organizations in education.

At regular intervals, Encore gives away headphones, earbuds, or headsets to one randomly selected entrant as part of an ongoing contest. The contest is open to all non-profit charitable organizations, K-12 public, private, charter, or parochial schools and public libraries. The giveaway is held through the Encore microsite, www.freeclassroomheadphones.com. Teachers, PTO members, and administrators of qualified organizations may enter if they so wish. To this day, Encore sees submissions from districts and nonprofits all over the United States.

Program participation is open to non-profit charitable organizations classified as a 501(c)(3) public charity by the Internal Revenue Service; a K-12 school or public library; or a K-12 public, private, charter or parochial school as listed by the U.S. Department of Education?s National Center for Education Statistics (NCES). It is

also open regionally to all 50 states across America. Participants may submit an entry each month. Entries should be submitted online.

Entrants are asked to share their name, organization, education technology needs, how winning products would be utilized, and how their organization would benefit from winning. The Great Headphone Giveaway entry information will be shared publicly online. One new winner is picked each month, so anyone can participate each month for a chance to win. Winners are notified by email, and their stories will be shared on the website. No purchase is necessary to enter or win. Learn more here: Great Headphone Giveaway at FreeClassroomHeadphones.com.

According to the Encore Data Products representative, ?we offer school classroom headphones, cases, document and web cameras, podcasting equipment, docking stations, and cables of all kinds in addition to charging options.
