

Mobidonia Redesigns Shopify Mobile App

December 04, 2015

December 04, 2015 - PRESSADVANTAGE -

Mobidonia, a business with a US office in Las Vegas, NV, has announced that they have completed a redesign of their popular Shopify mobile app. The app is now much cleaner and far more modern in its look and feel. The app and its details can be accessed through Mobidonia.com.

"Our Shopify app has long been popular and continues to be one of our most in-demand options," says a company representative from Mobidonia. "While we have left all the important elements in terms of functionality, we have made some significant changes to the look and design. Really, it has brought it into the 21st century. And it is a lot more user friendly as well."

The Shopify app is just one of the many apps that are available through Mobidonia. The company encourages people to come up with their own ideas and create something that works for them in less than a day. Linking it to Shopify means that they can create an eCommerce store with great ease, selling their products to the market through a completely secure platform.

Through the company's app builder, people can get started on designing something unique that works for them. "Mobidonia's catch phrase is to unleash your creativity and that is exactly what they enabled me to do," says one happy client. "Thanks to their work and ongoing support, I have been able to save a lot of time and have attracted a lot more customers. They created and designed the app for me, based on a description of what I wanted to achieve. The app was fully optimized in its description as well, which made it much easier for my potential clients to find it. They even created a splash screen, app icon and various other graphics for me. I couldn't be happier."

The company is also very active on Twitter and they encourage everyone to follow them on that platform. Doing so will enable followers to stay up to date with industry developments, but also to be first to hear of any special offers and new app creations or designs made by the company.
