Arlington Heights homeowners planning basement renovations can rely on the full-service remodeling solutions offered by Chicago's very own Premier Kitchen & Bath Remodeling.

Basement remodels are one of the most cost-effective ways for homeowners to maximize the space in their homes without running afoul of the city's zoning laws and investing in expensive additions to the property. One of its primary benefits is creating a versatile and functional living space out of an otherwise unused area. Some of the most popular basement remodel projects that Chicago homeowners frequently undertake include creating additional bedrooms, bathrooms, a home theater, a home gym, and even a guest room for sharing quality time with friends and family.

"Basement remodels significantly add to the resale value of a property," the spokesperson for Premier Kitchen & Bath says. "When completed properly, a finished basement can be a major selling point for prospective buyers. According to national surveys of property sellers, homeowners can recoup up to 75% of

their original remodeling investment when the property is put on the market. A finished basement is a valuable asset to any home, and can increase the home's appeal and value, tipping the scales in the minds of buyers and bumping it to the top of their lists.?
