

California Company Launches New LED Flashlight For Use As Hunting Tool

December 24, 2015

December 24, 2015 - PRESSADVANTAGE -

Coronado, CA based Perfectly Vivid recently launched an LED flashlight that can be used as a hunting tool. Dr. Christopher Vogelmann, a spokesperson for Perfectly Vivid, explained that due to its small size, the flashlight is perfect for hunters. "It's small enough to carry in your pocket, jacket, or vest," he states. Vogelmann also says that the flashlight offers several hours of LED lighting, which is just one more reason that it is perfect for hunters. It is constructed of aircraft grade aluminum, designed to be durable, and provides users with up to 100,000 hours of lighting.

"This is why it's the perfect hunter's tool," states Vogelmann. "Not only is it durable, but it's easy to carry because of its size, and will provide more than enough light to last through an entire hunting season."

Vogelmann states that the small size makes it easier for hunters who are typically tasked with carrying many different pieces of equipment during a hunt. The fact that the flashlight fits into a pocket makes it better than many other flashlights on the market because it is more convenient to carry. He urges hunters to learn more about the LED flashlight by visiting the company's official Facebook page at <https://www.facebook.com/perfectlyvivid/?fref=ts>.

Available currently on the Amazon marketplace, the tactical grade flashlight features a focusing lens and high lumen output. It is waterproof and offers different memory modes for a multitude of users. The company says that the high LED output, coupled with the reliability of the light in general, makes it great for hunters who are out early in the morning or late into the evening and need reliable lighting. Vogelmann states that many hunters are out so early in the morning that they need lighting to be able to find their way to their hunting spots. The tactical flashlight is therefore suitable for early hunters as it provides adequate lighting in a durable shell.

The company offers a number of consumer products, all designed for durability. More about Perfectly Vivid and their LED tactical flashlight can be seen on their official website at <http://perfectlyvivid.com/>.
