April 03, 2023 -

Temecula, CA ? Temecula Tree Service Pros, in partnership with the newly opened Spa Escape & Wellness in Temecula, California, has launched its first-ever tree-based spa treatment. Utilizing the essential oils extracted from locally sourced trees, this new therapy will help relax and invigorate both body and mind.

The new spa treatment is designed to provide a truly unique experience that combines the therapeutic benefits of nature with modern spa therapies. The essential oils extracted from the local trees are combined with aromatherapy and massage techniques to calm the senses and body deeply.

?We are delighted to launch this new tree-based spa treatment,? said Marilyn Coleman, Temecula Tree Service Pros CEO. ?At Temecula Tree Service Pros, we specialize in tree removal, pruning, and land clearing services, and now we're taking our deep understanding of trees one step further by harnessing the healing power of their essential oils.?

The new spa treatment was developed based on research by leading aromatherapist Dr. Maryann Cates. Dr. Cates has spent years studying the therapeutic effects of essential oils extracted from trees and plants. She explains, "Trees have long been known for their ability to promote health and wellbeing, so exploring the potential of using their essential oils in a spa setting only made sense. We are seeing incredible results from our research so far, and I am excited to see how the public responds to this new therapy."

Temecula Tree Service Pros and Spa Escape & Wellness offers tree-based spa treatment as part of an extensive menu of services designed to promote relaxation and rejuvenation. The spa also offers various treatments, such as facial and body wraps, manicures and pedicures, massages, and reflexology. All treatments are administered by highly trained staff in a tranquil environment.
