

Monterey Tree Service Experts Launches Free Sapling Program for Homeowners

April 03, 2023

April 03, 2023 -
Monterey, CA - Monterey Tree Service Experts is proud to announce the launch of an exciting new program that provides free sapling seedlings to homeowners for planting in their yards. The initiative seeks to encourage more people to plant trees on their property, helping to create a greener and healthier environment for everyone.

The new program will provide homeowners free saplings from various native species, including oak, maple, ash, elm, and cherry. The saplings are sourced from local nurseries and farms, ensuring they are healthy and hardy enough to thrive in the environment. The saplings range from one foot to two feet tall and have detailed instructions on properly caring for them as they grow.

"We are thrilled to be launching this new program," said Bristol Adrinna, CEO of Monterey Tree Service Experts. "Trees are vital to any ecosystem, providing shade and shelter for wildlife, cleaning the air, and beautifying our environment. We want to do our part to ensure that every homeowner has the opportunity to

make a positive impact on the planet."

Read this story to learn about Monterey Tree Service Experts' recent project to launch a tree care app: https://www.pressadvantage.com/story/59122-monterey-tree-service-experts-launches-mobile-app-to-empower-urban-tree-care.

In addition to providing saplings for homeowners to plant, Monterey Tree Service Experts will offer educational resources and guidance on proper tree care and maintenance. They will partner with local arborists and horticulturalists who can provide expert advice on ensuring the saplings thrive over time.

"At Monterey Tree Service Experts, we believe in taking a holistic approach to tree care," said Lead Researcher Dr. William Jenkins. "Our goal is to get trees planted and ensure that they receive the proper care and attention they need to reach their full potential. That's why we're bringing together experts from all aspects of tree care to provide comprehensive support."

Homeowners interested in participating in the program can visit the Monterey Tree Service Experts offices. Once registered, they will receive their sapling within a week.

As part of the program, Monterey Tree Service Experts is also hosting a series of virtual workshops to help educate participants on proper tree care and maintenance. These interactive workshops will cover pruning, fertilizing, and pest control.

"We want to ensure everyone has access to the knowledge and resources needed to plant and nurture their saplings successfully," said Adrinna. "These workshops will give participants the tools they need to become better stewards of our planet."

Monterey Tree Service Experts hopes to inspire people to take action and make a difference in their communities with this initiative. By providing free saplings and educational resources, homeowners can create their own little piece of paradise right in their backyard.
