

Sacramento Tree Professionals Launches Customized Tree-Based Jewelry, Creating Unique Treasures From Nature

April 03, 2023

Sacramento, California - April 03, 2023 -
Sacramento, CA ? Sacramento Tree Professionals is excited to announce the launch of their newest venture, creating unique custom tree-based jewelry from locally sourced materials. The company, founded by CEO Duygu Bagdu, specializes in crafting sustainable pieces that capture the natural beauty of the trees and bring joy to those who wear them. With the launch of this new service, Sacramento Tree Professionals hopes to increase awareness and appreciation for nature and give customers an opportunity to create meaningful and lasting memories with their loved ones.

"We are so excited to offer our customers this unique and personalized experience," said Bagdu. "Our goal is to provide a way for people to express their love and admiration for nature creatively and thoughtfully."

The process begins with selecting a tree species and location. Customers can choose from various wood types, including redwood, maple, ash, and walnut. Once the tree type is selected, Sacramento Tree

Professionals will source the wood from local forests or replicate the customer's favorite tree they already have in mind.

Next, customers will be asked to select a pendant or bracelet design. They can also decide on which type of metal they want their piece to be made from. Options include sterling silver, gold plated, or rose gold plated. Finally, customers can add any engraving or special message they wish to customize the piece.

Once the order is submitted, Sacramento Tree Professionals will begin handcrafting the jewelry using milling machines, saws, drills, and other tools that help craft each piece into its desired shape. Afterward, the team carefully sands and polishes each piece to ensure it meets the highest quality standards. Lastly, the custom pieces are sent out for shipping with care instructions included.

"As someone deeply rooted in both the Sacramento region and in my passion for nature, I'm thrilled to be able to offer these beautiful pieces that represent our local culture," said Bagdu. "Not only do these custom pieces remind us of our connection with nature, but they also make wonderful gifts for friends and family."

Sacramento Tree Professionals strives to ensure each piece is unique, as no two pieces of wood are identical. All materials used are sustainably sourced from local forests and crafted with great attention to detail and precision. The team at Sacramento Tree Professionals is dedicated to creating one-of-a-kind pieces that remind people of the beauty of the outdoors while preserving its integrity.

"Our mission is to use our creativity and passion for nature to create timeless keepsakes that will be cherished for years to come," said Bagdu. "We take pride in every piece we create and strive to provide customers with a product they will love and cherish forever."
