Menifee Tree Service Professionals Partners with Local Candle Maker to Create Tree-Based Candle

April 04, 2023

April 04, 2023 -
Menifee, CA ? Menifee Tree Service Professionals, a local tree service company, has partnered with a local candle maker to create a unique tree-based candle. The candle is made using natural waxes and scents derived from various types of trees, giving it an earthy and calming aroma.

?We are incredibly excited to be able to offer our customers this unique product,? said Manda Smith, CEO of Menifee Tree Service Professionals. ?It not only provides them with an innovative new way to enjoy the beauty of nature but also serves as a reminder of our commitment to protecting the environment.?

The candle is created using waxes harvested from beekeepers in the area and scented with essential oils derived from different types of trees. It is then hand-poured into glass jars that are stamped with the company logo. The candles come in various sizes and prices, making them perfect for any budget.

This partnership aims to help spread awareness about the importance of preserving the natural environment. Trees are pivotal in regulating climate change, providing oxygen, and supporting wildlife habitats.

?At Menifee Tree Service Professionals, we believe that by creating products like these, we can help people connect with nature in a meaningful way,? said Smith. ?It?s important that people understand how vital trees are to our world and how taking care of them helps ensure a healthy future for all of us.?

In addition to the candles, the company will offer other products such as tree ornaments, artfully crafted using branches on their property. All proceeds from these items will go towards supporting local environmental

initiatives.

This isn?t the first time Menifee Tree Service Professionals has partnered with local businesses to create products that support their mission. Last year, they collaborated with a metalworker to create custom tree stands for hanging bird feeders and birdhouses. This project was so successful that it prompted the launch of the tree-based candle line.

?We strive to create meaningful partnerships with small businesses in the area so we can work together to raise awareness about the importance of taking care of our environment,? said Smith. ?We are proud to be able to provide our customers with products that not only look great but also give back to our community.?
