

Roofing Contractor Serving Fort Worth Texas Earns Another Highly Positive Review

April 17, 2023

April 17, 2023 - PRESSADVANTAGE -

Mighty Dog Roofing of West Fort Worth, a roofing contractor based in Fort Worth, TX, is happy to announce they have earned another five star review. This roofing contractor serves the roofing and gutter needs of Fort Worth and other areas, including West Fort Worth, Aledo, Azle, Benbrook, Carter, Cresson, Crowley, Denton, Eagle Mountain, Millsap, NOSC NAS JRB Fort Worth, Saginaw, Weatherford, and Willow Park. They offer roof inspections, roof repair, roof installation, attic venting, gutter inspection, gutter repair, and gutter installation.

In the mentioned review above, Trevor G. gave them a five star rating and said, "We had a great experience with Mighty Dog. We needed our entire roof replaced, and the Mighty Dog team made the whole process as seamless as possible. Rodney Hall and his team were highly professional and very responsive with all of our questions as first time homeowners. Rodney worked directly with our insurance provider and pushed for the full coverage we needed to make the necessary repairs to our home. Additionally, the crew got the job done in just one day, and the roof looks great. Highly recommend this company for any roof repairs you need."

One of the services offered by Mighty Dog Roofing of West Fort Worth that differentiates them from other

roofing service providers is the Drone Superscan inspection, which examines 25 elements of the roof and other external home parts. These include the: foundation drainage inspection; inspection of step counter flashing; inspection of skylights; aircon unit exterior inspection; inspection of valleys; eaves and rakes inspection; inspection of storm damage caused by the wind; inspection of step and counter flashing; roof edging inspection; ventilation inspection; soffits and fascia inspection; inspection of gutter aprons; drip edge inspection; inspection of roof sheathing or decking; plumbing stack inspection; nail head inspection; roof ventilation and exhaust system inspection; window inspection; hip and ridge inspection; gutters inspection; inspection of siding; chimney inspection; inspection of furnace caps and pipes; inspection of storm damage caused by hail; attic inspection; and downspouts inspection.

Mighty Dog Roofing also provides the Customer Vault, which is a personal storage provided for every customer. In this vault are stored the home's exterior records, pictures, reports, products used, warranties, communication, maintenance records, and referrals. With this vault, it is easy for the roofing contractor or the client to access any desired information they need.

Another important service offered by Mighty Dog Roofing of West Fort Worth is their Watchdog Maintenance service. The goal of this service to make sure that any developing problem is detected as early as possible and get fixed as fast as possible to prevent serious problems in the future that will be costly to repair. They will perform inspections of the roof and other exterior parts of the home annually and provide a report. These yearly reports will be included in the Customer Vault for that particular homeowner. These reports are then compared with each other to determine the trend on the condition of the roof. This will allow them to make a forecast on how the long the roof may last, allowing the homeowner to be prepared for the major cost of a roof replacement.

They also provide the Curb Appeal Visualizer, which is an app that runs on any mobile device, allowing the homeowner to visualize how the house would look like when using a particular color or roofing material, etc. Thus, the client can try various combinations until satisfied with how the home looks.

Mighty Dog Roofing of West Fort Worth is locally owned and operated by Ben Hobbs, who has focused on real estate investing and home improvement since the early 2000s. He earned his master's degree in real estate and construction management in 2006 from the University of Denver. Next, he worked as a commercial real estate broker in Colorado, focusing on office buildings. He is a highly qualified general contractor and construction manager. He resides in the Linwood community of Fort Worth with his son and wife.
