

## **ProSmile Dental Implant Center in Scottsdale Celebrates Placement of Over 10,000 Dental Implants**

*April 11, 2023*

April 11, 2023 - PRESSADVANTAGE -

Scottsdale, Arizona: With dental innovation and science at its core, ProSmile Dental Implant Center continues to be a pioneer in the field of dental implantology. Dr. Amogh Velangi and Dr. Akhil Mehta are now celebrating the placement of more than 10,000 dental implants for patients in and around Scottsdale and Phoenix, AZ. Their local dental clinic provides implants with exceptional stability, durability, and the most natural look possible.

ProSmile's revolutionary implant creation and placement techniques pledge 100% implant and prosthetic survival. The dental clinic features an in-house lab with cutting-edge technology, such as computer-guided surgery, laser dentistry, 3D imaging, and custom-designed prosthetics. This all-inclusive approach eliminates the time and cost spent for coordinating care between multiple providers, resulting in a streamlined, efficient and more cost-effective dental experience.

Led by board-certified dentists and oral surgeons, Dr. Mehta and Dr. Velangi, the team sets the tone for the

future of dental implant and prosthetic technology in Arizona. From innovative 3D imaging to custom-made crowns to All-On-4 implant solutions, patients can benefit from a precise diagnosis and treatment plan. Their 3-step process ? assessment, planning and treatment ? allows for the most thorough patient care, with minimal discomfort.

Metal-ceramic, porcelain-fused-to-metal, and all-ceramic restorations are the options available for patients. Each prosthetic material has superior biocompatibility, low bacterial adhesion, high flexural strength, and high-esthetic value.

With more than 10,000 successful implant cases, ProSmile is proud to be a leader in dentistry, with the highest success rates for dental implants. Patients can rest assured knowing they will receive quality care from the top dentists in Scottsdale and Phoenix.
