Backyard Bug Patrol Drives Away Mosquitoes & Ticks During Spring

April 19, 2023

Great Falls, Virginia - April 19, 2023 -
Great Falls, VA based Backyard Bug Patrol (BBP) is pleased to acknowledge that many homeowners have already signed up for the company's tick and mosquito control plans. Given that the tick and mosquito season arrived with the spring season, anyone who wants to enjoy their outdoor spaces would benefit from these control plans. Signing up is as easy as calling the company today. Find Backyard Bug Patrol on Google here.

?We would like to thank our customers,? the company states, ?for trusting us yet again to protect them and their families from ticks and mosquitoes. There are few experiences as pleasant as spending time in your garden or yard during spring, and this can be ruined by an influx of tiny pests. We strive to remedy this situation for you, and we are delighted to share that many households have already begun making full use of their time outdoors thanks to our control plans. If you are interested in the same, give us a call. We will visit your property and figure out the best way to protect you and your loved ones from ticks and mosquitoes.?

Customers universally report a positive experience with the team. Thanks to Backyard Bug Patrol?s expertise and tools, they are able to investigate properties thoroughly and discover the root cause of virtually any kind of infestation. This means they can also target the source with more care, reducing the likelihood of collateral

damage on beneficial flora and fauna in the area ? and keeping the customer and their family completely safe as well.

?We have been using Backyard Bug Patrol's mosquito barrier treatments for many years,? says Joann H., ?and we've been very pleased with the results! Our backyard used to have so many mosquitoes that our kids would be bitten up every time they went outside to play. But Backyard Bug Patrol has drastically reduced the number of mosquitoes and gnats in our backyard so that my kids now enjoy being outside again! We added the Backyard Bug Patrol rodent bait services and it has gotten rid of our problems with mice in our house.?

Another review from Tom Lee shares, ?Backyard Bug Patrol provides excellent service and protection in our backyard and around our house to minimize exposure to ticks and mosquitoes. The team is responsive when scheduling and takes a lot of pride in their work to give us greater peace of mind during tick season. We use them for the entire season annually and have always been happy with their service.? See more here: https://www.yelp.com/biz/backyard-bug-patrol-great-falls-2.

While the company?s control plans typically involve a scheduled service, they recognize that nature can react in unexpected ways. Ticks and mosquitoes may not always stay away as long as expected, and this timing can be influenced by a number of factors that are well out of a homeowner?s control. However, BBP is pleased to confirm that their team will come out for free in the event a customer reports a new problem with such pests following a treatment. Customers on seasonal contracts need only inform Backyard Bug Patrol of the problem, and the company will dispatch a technician to resolve the matter ? at no additional charge.

Residents in Virginia and Maryland should also note that the company offers an umbrella plan that includes green pest control, preventative termite control and rodent and ants control at a discounted price. In addition to mosquitoes and ticks, this can help homeowners keep ants, rats, spiders and so on away from their homes and loved ones. It may seem impossible to limit how many pests a house has to deal with, but BBP assures that this is not the case. With their targeted treatments, the company can make sure pests stay away as long as possible.

Spring may be underway, but it is not too late to sign up for Backyard Bug Patrol?s control plans. Homeowners and others who like to spend time outside are welcome to contact the company today to learn more. BBP can be reached through social media as well.
