More Value Added Thanks To Peppy Heating And Cooling's New And Improved Comfort Club

May 22, 2023

Boise, Idaho - May 22, 2023 -
Idaho based Peppy Heating And Cooling is pleased to invite Boise and Nampa residents to join their new and improved Comfort Club. The Comfort Club is a great way for customers to gain peace of mind as it relates to their home heating and cooling.

Every furnace and air conditioner requires regular maintenance to ensure it runs at peak performance and to extend the life of the device. Most people forget or simply do not have the time to schedule maintenance for their HVAC systems.

?We wanted to add The Comfort Club that will add value to the longevity to the system,? says Peppy Heating and Cooling President Brett Shannon. ?It?s $650 extra value on services that aren't typically included. We added a ton of new value to our comfort, making it an even better investment toward the future of your home comfort. We've added three significant services that are important to the overall functionality of your heating and cooling equipment.?

Working with an HVAC contractor that knows what they are doing and strives to bring peace of mind to Boise homeowners is something that many of Peppy Heating and Cooling?s customers have come to appreciate greatly. The company provides fast, affordable and reliable HVAC services, and their Comfort Club is just one of the many ways in which Peppy Heating and Cooling strives to ensure that every household in the Boise area is cool in summer and warm in winter. All homeowners wish to avoid having a furnace or air conditioning system break down when it is most needed, and the Comfort Club was created with this in mind.

Shannon says, ?There?s never ever a good time for your HVAC system to go out, but when it does, it's typically the worst time. It?s becoming more and more popular for homeowners to take the worry out of the unexpected by enrolling in our comfort club which gives consumers peace of mind.?

The Comfort Club program makes it easier for members to schedule maintenance for heating and cooling systems by providing two yearly services. Consumers can choose to pay just $20.50 per month or pay on a

yearly basis, and Peppy will provide them with one maintenance service for their furnace and another for their AC.

Shannon comments, ?There are so many advantages to making the monthly investment in our Comfort Club. Our members get priority treatment when there is an issue plus 15% of repairs. And when it's time to buy a new furnace or AC, we'll take $100 off the purchase price.?

There are a number of reasons why Boise residents choose Peppy over other contractors ? such as the fact that they listen to their customers. From the customer?s first phone call to the final installation and beyond, the Peppy team makes sure that the customer is totally at ease. They know that homes come in all shapes and sizes, so they make it a point to remain flexible and approach every job with no preconceived notions of what needs to be done and how. The company makes sure to get a good understanding of each customer?s goals and their budget before recommending a particular course of action.

Every decision or suggestion made by Peppy?s HVAC specialists comes from a company-wide desire to ensure every customer is happy with the service they receive. Peppy Heating and Cooling also offers emergency services so they can help customers who find themselves without a working HVAC system during some of the hottest or coldest months of the year.

The HVAC company is family owned-and-operated, and the Peppy team is proud of their connection to the Boise community. Part of what makes this connection possible is the fact that Peppy does not charge any hidden fees and makes it a point to be totally transparent in everything they do.

Learn more about HVAC maintenance, repair and installation by visiting Peppy Heating And Cooling?s website. Those interested can also read more about the Peppy Comfort Club by visiting the company?s website.
