

Dr. Mark Hickman Is Reducing the Cost to Reverse a Vasectomy at His Clinic in New Braunfels, Texas

April 28, 2023

New Braunfels, TX - April 28, 2023 - PRESSADVANTAGE -

Dr. Mark Hickman, one of the nation's foremost experts on microsurgery, is offering affordable vasectomy reversal procedures at his clinic in New Braunfels, Texas.

Dr. Hickman began his career when he received his medical degree at 23 from the University of Texas Medical Branch in Galveston, TX. After undergoing extensive training in General Surgery Residence at the University of Texas for five additional years, he was introduced to microsurgery with Plastic and Reconstructive Surgeons. His passion for learning the then-fledgling field of surgery soon propelled him onto the national stage as he became one of the most important and recognized contributors to the field.

Today, as an expert in laparoscopic procedures, he holds the distinction of having invented several surgical instruments, has been awarded a US patent, and is recognized as a contributor on several other important minimally invasive patents. He is also invited to conferences and universities across the country to teach minimally invasive techniques to other surgeons. However, the true impact that Dr. Hickman has had on his

patients stems from his vision to bring the benefits of microsurgery to vasectomy reversals.

As a firm believer in the Christian faith, Dr. Hickman views vasectomies as a failed public health initiative that has ruined countless lives. He expands, "I have talked to hundreds of patients who regret undergoing the procedure after being misled by the promises of effective family planning. Not only do my male patients confide in me that they felt like they lost a part of themselves after their vasectomy, but upon talking to their partners, I realize that they too lament the lost chance to bring a new life into this world. So, as the founder of one of the most popular vasectomy reversal ministries in the country, I feel it is my duty to use my skills in microsurgery to help my patients get back their God-given gifts."

At Microsurgical Vasectomy Reversals in New Braunfels, Texas, Dr. Hickman has used his decades of knowledge of laparoscopic procedures to make vasectomy reversals affordable for everyone. The clinic offers two all-inclusive affordable options. The microsurgical vasectomy reversal cost option of \$3,300 includes local anesthesia and an oral sedative. The \$4,200 offer is performed under IV sedation and is administered by a Board Certified Anesthesiologist. Both microsurgical options are all-inclusive with no hidden fees.

During the microsurgical vasectomy reversal procedure under local anesthesia, a small incision is made on each side of the scrotal skin. The two ends of the vas deferens are found and freed from the surrounding scar tissue. Dr. Hickman then performs a microsurgical repair of the vas deferens using a Zeiss OPMI-MDM operating microscope utilizing 10-0 nylon sutures and 10 to 15 stitches. The goal of the procedure is to create direct and careful alignment of the lumen of the two ends of the vas and a watertight closure.

Dr. Hickman's mission to reduce the cost to reverse a vasectomy has struck a chord with families all over the United States. On the clinic's Google Business Profile, which has a near-perfect rating of 4.9 out of 5.0 from 60 reviews, patients thank Dr. Hickman for his knowledgeable approach, the compassionate care offered by his staff, and the affordable procedure costs.

One recent review says, "This was my first experience with a doctor outside of military networks. It was a great experience. Dr. Hickman provided everything that was going to happen and answered all the questions. They provided great information pre and post-op. I didn't have any issues at all and would 100% recommend his services."

Another patient writes, "All the information that I needed was given before the operation. Every step was explained, and I was guided through the process. Very professional staff and Dr. Hickman was extremely confident with his performance. I will recommend him to family and friends."

Readers can contact Microsurgical Vasectomy Reversals by Dr. Mark Hickman in New Braunfels, Texas, at (830) 660-0600 to schedule a consultation or inquire about its services.
