They sent Trey and Joey out each time, and both were very professional and did their job well. Definitely recommend for gas piping, water plumbing and drainage piping work as well faucet installation.'

Another customer shares that, 'I had a water leak that another well-known plumbing company was unable to find. They gave up after three visits and sent me a large bill. I called Cajun Maintenance for a second opinion using their leak detection service. David arrived at 8:00, found the leak and quoted a reasonable price for the repair. We also hired him to do the repair. He showed up on time to do the repair and got to work immediately. We are very happy with his work and will choose Cajun Maintenance for our future repairs.'
