

Cicoria Tree and Crane Service Offers North Shore Residents High Quality Tree Care

May 01, 2023

May 01, 2023 -
Cicoria Tree and Crane Service, Inc. is offering full-service tree care for residential and commercial property owners in the North Shore of Boston and Essex County.

The family-owned and operated arborist has been helping homeowners care for the trees on their North Shore properties for over 40 years. The company even has the distinction of being the only independently owned, TCIA-Accredited tree care company in its service area. The fully insured company is staffed by certified arborists and applicators who use the best industry-standard equipment to deliver high-quality yet cost-effective tree care services to its clients.

To remind homeowners on the North Shore of the advantages of working with the company, it reveals the modern equipment that it operates on job sites to achieve its top-notch results. The most notable piece of machinery that the company owns is a 60-ton, 160-foot crane that allows its arborists to perform all kinds of tree pruning and maintenance tasks on the region?s naturally occurring tall and foreboding tree species. The

company also boasts a fleet of five chip trucks, three bucket trucks of working heights 58', 62', and 77', four log trucks, and a stump grinder.

?We are proud of the investment we have made in our world-class equipment,? says the spokesperson for Cicoria Tree and Crane Service. ?However, regardless of the colossal reach of our crane, some jobs just cannot be completed without the human touch. That is why we have experienced professional tree climbers on our team that know how to make the best use of our equipment. So, whether it be the removal of a 100-foot pine tree from a difficult location or fine pruning within a delicate canopy that cannot be penetrated by a bucket truck, you can count that our skilled tree climbers will be on-site to ensure the ideal results for you.?

Cicoria Tree and Crane Service?s services include tree pruning, tree removal and stump grinding, cabling and bracing, and emergency tree services. The company?s certified arborists can also help its clients on the North Shore care for the health of the plants on their property by offering services such as fertilization and soil management, insect and disease management, construction damage mitigation, and arborist consultation.

The company?s roster is stacked with several experienced personnel including one Board Certified Master Arborist, five Certified Arborists, two Tree Risk Assessment Qualified Professionals (TRAQ), four Certified Treecare Safety Professionals (CTSP), and seven Certified Pesticide Applicators. Cicoria Tree and Crane Service?s TCIA accreditation also means that it meets stringent criteria for professionalism, employee training, state and federal safety regulations, business ethics, and consumer satisfaction and has undergone a comprehensive on-site audit of professional and business practices, aimed at safeguarding consumers.

North Shore residents have repeatedly praised the tree services offered by Cicoria Tree and Crane Service. On its Google Business Profile, where it has an impressive overall rating of 4.8 out of 5.0 from over 100 reviews, homeowners note the professionalism of the company?s crew and its responsive customer service.

One Google review says, ?Cicoria did a fantastic job removing a very large dead maple tree that was close to our house. They communicated the schedule very well; arrived like supermen flying in on the crane; securely chained the tree in segments; then cut & removed it in about an hour. Later in the day, we went over to inspect where the crane & cutting operation had been staged and we couldn't even find any sawdust indicating where the tree was cut up. Phenomenal job - Thank you!?

Another satisfied North Shore homeowner writes, ?Used them several times over the years and have always had great service. Have trusted what the arborist recommends because he doesn't push things that aren?t needed and the crews have done an awesome job including a great job cleaning up. Will use them again.?
