"Mighty Dog Roofing was an answer to my prayers," says a recent review from Rosibel K. "I needed my old roof completely redone. I was searching for a roofing company and got multiple quotes. However, for some reason, it didn't work out. After a lot of prayer, I saw Mighty Dog Roofing's ad in a local magazine and decided to give them a call. From the very beginning, my experience was very pleasant. They met with me right away, scheduled the work and got the roof done in a couple of days."

The review adds, "Everyone was very kind, and the salesperson, Ryan, was exceptionally professional and provided excellent customer service. The roof is great! And they got it done before the snow came, just like I had prayed for! I highly recommend them!"

Mighty Dog Roofing has been active for over 20 years and has provided home and business owners across the country with high quality roofing services. Their trusted, certified experts have the tools and experience needed to handle all kinds of roof repairs and replacements, no matter the size of the roof.

There are a number of reasons why Portage residents choose to work with Mighty Dog Roofing. The first of these reasons is the fact that Mighty Dog uses innovative, state-of-the-art technology to accurately generate reports of the status of a customer's roof. They make use of a drone, for instance, to provide objective, accurate data that helps them and their customers make informed decisions regarding a damaged roof. All this information (and more) is stored securely in Mighty Dog Roofing's Customer Vault, keeping it safe until it is needed.

Customers will be pleased to find that the company also has a curb appeal visualizer which allows them to take a picture of a house and then create a visualization of what its roof would look like in a different color. This information is similarly stored in the vault, and the customer may revisit their options again at a future date.

Additionally, the company provides emergency roof repair services. They are able to send a team out to investigate a damaged roof within 24 hours of being contacted. Customers can also access the company through the vault for a quick response. More information can be found here: [Visit Web Site](#).
