

## **Cestari Kitchen Launches Brand New Chalkboard Labels**

*March 26, 2015*

LITTLETON, MA - March 26, 2015 - PRESSADVANTAGE -

Cestari Kitchen has announced the launch of their new product: chalkboard labels. These chalkboard labels are available from Amazon, offering a secure shopping experience. It is believed that the labels will sell very quickly.

"Our chalkboard labels are unique and stylish," explains Susan MacDowell, from Cestari Kitchen. "They fit any type of kitchen decor, from vintage chic to French or English country. Plus, they are fully reusable, as you can always wipe off what you have written on them."

The Cestari Kitchen chalk labels come in a set of 52. Although other brands have also sold chalk labels, these are completely different. This is because they do not use coated paper, which is of far poorer quality. These labels are made from PVC and are phthalate-free. They have a matte finish, which makes them perfect for chalking. The set of 52 comes in four different sizes, contained in a resealable bag. They are perfect not just for labeling kitchen jars either. Rather, they can be used for craft projects, organizing and simple decoration.

The Cestari Kitchen chalk labels are backed by a lifetime product satisfaction guarantee. They can be used again and again and are very easy to clean. Indeed, they only need to be wiped down with a damp cloth and simple be reused. For a limited time, customers can get a Cestari Kitchen chalk pen for free when they add both items to their Amazon cart in the same order.

"Our chalk labels have been designed to be able to accept ordinary chalk and liquid chalk," adds Susan MacDowell. "Both work equally well. However, we believe that the liquid chalk in a chalk pen allows for finer writing, which simply looks prettier. As a gesture of appreciation, we are featuring a special offer which gets customers a free chalk pen with current orders."

Customers who have purchased the labels are full of praise. They have been particularly impressed with the unique texture of the labels. Additionally, people really enjoy the variety of sizes that come in the pack and the fact that they can be reused. This is indeed an important factor, because it also makes the labels more eco-friendly. The labels can be used many times, exhibiting different messages each time. They are backed with a lifetime satisfaction guarantee.

Many people seem to be coming up with ever more inventive ways of using the labels. Although presented as a kitchen product on [www.amazon.com/Chalk-Labels/dp/B00RO8W19Y](http://www.amazon.com/Chalk-Labels/dp/B00RO8W19Y), they are used in a variety of different ways. Labeling jars is indeed a popular option, but they can also be used to organize different boxes and drawers in a fun and stylish way. Some people even use the labels as memos, placing them on the fridge or next to the front door so family members can leave each other messages.
