

Las Vegas Catering Business Adds Vegetarian Menu

December 08, 2015

December 08, 2015 - PRESSADVANTAGE -

Five Star Catering, a business in Las Vegas, NV, is proud to announce that they have added a fully vegetarian option to their menu of choices. This comes after frequent customer demands for a more complex menu for people with different lifestyles and dietary choices. People are already leaving positive reviews about the catering business' new menu.

"Like all catering businesses, we had some vegetarian options on offer," says the head chef of Five Star Catering. "However, they were limited to simple things like stuffed mushrooms and vegetable kebabs. Noticing how often people requested a vegetarian option, we decided to extend our vegetarian menu to include far more choices. We're happy to see that people are appreciating these efforts."

The chef at Five Star Catering has taken a training course specific to vegetarian menus in order to ensure the dishes on offer are more varied and tastier. They continue to offer stuffed mushrooms and vegetable kebabs, but now also use many other ingredients to make beautiful and delectable vegetarian dishes. Their most popular ingredient is haloumi cheese, particularly when grilled with some chopped parsley and drizzled in olive oil with a hint of chili.

The new dishes have also been heavily featured on the company's Twitter page on <https://twitter.com/fivestarcater1>. Photographs of the various platters are featured and people have been asked to give an indication of what their favorite meal has been. They are also asked to make requests for new dishes, which will then be considered by the chef.

"We want to make sure that we offer exactly what our clients want," adds the chef. "Having now been trained in vegetarian cooking, I am ready to experiment with new dishes and I look forward to what people come up with in terms of additions to our overall menu."

The company has requested everybody to give them a 'Like' on Facebook through <https://www.facebook.com/Five-Star-Catering-1526298334329702/>. Here, they will be able to ask questions and leave comments on the new menu, and also to make more suggestions in terms of what to add.

Suggestions that are coming in will all be considered individually.
