

Las Vegas Pool Services Company Completes \$1,000,000 Pool Design

December 09, 2015

December 09, 2015 - PRESSADVANTAGE -

Pool Pro Sales, a business in Las Vegas, NV, is proud to announce the completion of a \$1,000,000 pool design. Now that the design and construction have been completed, the company will continue to deliver pool services to the proud new owner as well. The pool itself is making a positive impression already and is expected to win a number of design awards.

"Every once in a while, you hit that lucky break and get the customer of your dreams," says a spokesperson for Pool Pro Sales. "When we were contacted to complete this job and were told that money was literally no object, we couldn't believe our luck. This was an opportunity to truly unleash our creativity and come up with something never seen before."

The new pool includes safe shallow areas for young swimmers and a wide deeper area for those who want to practice their dives or do laps in the pool. There is also a hot tub included, incorporated into the pool itself, as well as a waterfall and a number of fountain jets. On the side of the pool, there is a slide for younger people, as well as a faster one for the more adventurous, slightly older people.

The pool itself is surrounded by blue tiles with a Lapis Lazuli color that shimmer and sparkle in the dark thanks to the cleverly placed lighting. Some images are available through the company's Facebook page on <https://www.facebook.com/Pool-Pro-Sales-825100077606860/>. The client, who wishes to remain anonymous, is incredibly pleased with the design. "I come from humble backgrounds," she said, "and I had always promised myself that if I ever made it to the big time, I would treat myself to the most lavish pool imaginable. This is exactly what I have done and I can't thank Pro Pool Sales enough for turning my vision into a reality."

The company encourages everybody to follow them on Twitter through <https://twitter.com/poolprosales>. This offers an opportunity to remain up to date with industry news and company special offers. Additionally, more images of completed work and designs are frequently shared through the social media platform.
