

Cloud Solutions India Launches Three New Certification Courses

December 08, 2015

December 08, 2015 - PRESSADVANTAGE -

Cloud Solutions India, a business in Chennai, India, is proud to announce that they have launched three new certification courses. The three courses are the Certified Sales Cloud Consultant, the Certified Force.Com Developer and the Certified Administrator. The new certification programs are already becoming very popular. Full details about all the training courses that the company offers are available through <http://www.salesforcetraining.education/>.

"We strive to be the best and most relevant training provider in the Chennai area," says Jabaraj from Cloud Solutions India. "As a result, we regularly add new training courses to our offerings. The three new courses are incredibly important for people in today's world of business and we are happy to see that they are being so well received."

The Certified Force.com Developer course is particularly popular right now. Prospective students are encouraged to properly prepare for the 60 multiple choice questions, which they must complete in 90 minutes. A 68% correct grade or above counts as a pass. If they score below that, they will need to retake the exam. No online materials or hardcopy may be referenced during the examination. Full details are available

through <http://www.salesforcetraining.education/salesforce-com-certified-developer-certification/>.

The Certified Administrator course, meanwhile, is a comprehensive course on various elements of administration. It is particularly suitable for those who already hold an administrative degree such as the MBA, or a technology related degree such as the BCA. It is also a very useful course for those who are already professionally involved in administration, including consultants and analysts, software developers, sales professionals and project managers. Full details are available through <http://www.salesforcetraining.education/certifications/salesforce-com-certified-administrator/>.

The courses offered through Cloud Solutions India have been very well received by past students. "Though, I joined for convenience at first, I was wonder struck at their knowledge, commitment and level of understanding," says IT Professional Richard. "I am baffled at their work ethics and it comes as no surprise that they are being recommended as the premier Salesforce training center in Chennai. I have pushed in a few nice words to some of my team to make use of their training programs."
